Information:

Stay Beauty X5 Max UV LED ist eine Lampe zum Aushärten von Hybridlacken, Gelen und anderen lichthärtenden Produkten in LED+UV-Technologie. Die Leistung von 80 W sorgt für ein effizientes Aushärten der einzelnen Schichten, und die Möglichkeit, die Belichtungszeit zu wählen, ermöglicht eine Anpassung an das verwendete Produkt. Die breite Konstruktion erleichtert eine bequeme Handposition, und die Netzversorgung 230 V garantiert komfortable Nutzung ohne Aufladen. Das Modell eignet sich sowohl für den Heimgebrauch als auch für den Kosmetiksalon.

Full product description

Hybrid manicure

Stay Beauty X5 Max UV LED is a lamp designed for curing hybrid polishes, gels, and other light-curing products compatible with LED+UV technology. The device enables the successive stages of nail styling to be carried out in a home manicure corner or at a beauty station.

80 W power

The 80 W power supports efficient curing of individual styling layers. The exposure time can be selected according to the type of base coat, polish, gel, or top coat, following the manufacturer's recommendations for the product used.

LED+UV technology

The combination of LED and UV technology makes it possible to work with various light-curing products intended for this type of lamp. As a result, the X5 Max model can be used for hybrid and gel nail styling.

Comfortable hand placement

A width of 31.07 cm and a depth of 22.59 cm provide the space needed for comfortable hand placement during curing. The properly shaped housing helps shield the lamp's working area and makes it easier to carry out the next stages of the manicure.

Mains power supply

The X5 Max model is powered from a 230 V mains supply, allowing it to be used without charging a battery. A constant connection to a power source is practical when performing several styling stages and during regular use of the device.

For home and salon

The Stay Beauty X5 Max lamp can be used both by people doing their own manicure and at beauty stations. Its housing makes it easy to prepare a comfortable space for curing styles, and the light color matches salon equipment or a home vanity table.
