Full product description

Extralink Patchcord LAN cable 1 meter

Extralink **Patchcord LAN** is a 1 meter long copper network cable. **Patchcord LAN** is the basic element of computer networks operating in Ethernet standard. It is used to directly connect two active devices, such as a router or switch, so that data can be transferred between them. It is also used to connect computers or Voip telephones for structured cabling and to perform patch panel switching in IT cabinets. It is perfect for both large and small computer networks. Shielded patchcord **Extralink** is highly flexible, which translates into installation convenience and user comfort.

Durable LAN Patchcord 26 AWG

Screened category 5e FTP Patchcord by **Extralink** is terminated with screened, gold plated RJ45 plugs. It is made of four-wire cable, twisted pair type, made of pure copper, thanks to which it is possible to power network devices in PoE standard.

Compatible with any device with an RJ45 plug
