Price: **2.48 zł** gross / 2.02 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMJQQJRMNJH

Product features

Cable shielding	U/UTP (UTP)
Cable length	0.5 m
Colour	Gray
Sheath material	Polyvinyl chloride (PVC)
Product colour	Grey
Networking cable category	5e
Connector 2 gender	Male
Connector 1 gender	Male
Cable standard	Cat5e
Connector 2	RJ-45
Connector 1	RJ-45

Full product description

Extralink copper power cable - 0.5 meters

The network cable is a half-meter long Extralink Patchcord LAN copper cable. A **LAN Patchcord** is the basic element of computer networks operating in the Ethernet standard. It is used to directly connect two active devices, such as a router or switch, so that data can be transferred between them. It is also used to connect computers or VoIP telephones for structured cabling and to perform patch panels switching in IT cabinets. It is perfect for both large and small computer networks. **Extralink's** shielded patchcord is highly flexible, which translates into installation convenience and user comfort.

Durable LAN Patchcord 26 AWG

Unshielded category 5e UTP patchcord from **Extralink** is terminated with shielded, gold plated RJ45 plugs. It is built of a four-wire cable, twisted pair type, made of pure copper, thanks to which it is possible to power network devices in PoE standard.

Compatible with any device with an RJ45 plug
