Price: **17.99 zł** gross / 14.63 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMJQRERMMPK

Product features

Cable shielding	U/UTP (UTP)
Cable length	10 m
Colour	Gray
Sheath material	Nylon/Polyvinyl Chloride (PVC) + Polyethylene (PE)
Product colour	Grey
Networking cable category	5e
Connector 2 gender	Male
Connector 1 gender	Male
Cable standard	Cat5e
Connector 2	RJ-45
Connector 1	RJ-45

Full product description

Extralink Patchcord LAN network cable - 10 meters long

This **LAN Patchcord** from Extralink is a 10 meter long copper **network cable**. A LAN patchcord is the basic element of **computer networks** operating in the Ethernet standard. It is used to directly connect two active devices, such as a router or switch so that data can be transferred between them. It is also used to connect computers or VoIP phones for structured cabling and to perform patch panel switching in IT cabinets. It is perfect for both large and small computer networks. This unshielded patchcord from **Extralink** is highly flexible, which translates into installation convenience and user comfort.

Durable LAN Patchcord 26 AWG

Unshielded category 5e UTP patchcord from **Extralink** is terminated with shielded, gold plated RJ45 plugs. It is built using a four-wire, twisted pair cable, made of pure copper, thanks to which it is possible to power network devices in the PoE standard.

Compatible with any device with an RJ45 plug
