### Product features

|                           |                                                   |
|---------------------------|---------------------------------------------------|
| Cable shielding           | SF/UTP (S-FTP)                                    |
| Cable length              | 10 m                                              |
| Colour                    | Blue                                              |
| Sheath material           | Low smoke zero halogen (LSZH) + Polyethylene (PE) |
| Product colour            | Blue                                              |
| Networking cable category | 6a                                                |
| Connector 2 gender        | Male                                              |
| Connector 1 gender        | Male                                              |
| Cable standard            | Cat6a                                             |
| Connector 2               | RJ-45                                             |
| Connector 1               | RJ-45                                             |

### Full product description

#### Extralink Patchcord LAN network cable - 10 meters long

The **Extralink** network cable is a 10 meter long Patchcord LAN copper cable. **LAN Patchcords** are the basic elements of **computer networks** operating in the Ethernet standard. It is used to directly connect two active devices, such as a router or switch, so that data can be transferred between them. It is also used to connect computers or VoIP phones for structured cabling and to perform patch panel switching in IT cabinets. It is perfect for both large and small computer networks. This shielded patchcord **Extralink** is highly flexible, which translates into installation convenience and user comfort.

# Durable LAN Patchcord 26 AWG

Screened patchcord category 6A SFTP from **Extralink** is terminated with screened, gold plated RJ45 plugs. It is built with a four-wire, twisted pair type, made of pure copper, thanks to which it is possible to power network devices in PoE standard.

# Compatible with any device with an RJ45 plug
