Full product description

OUTER MUFF FTTX KATE 2 TRAYS 24 WELD / FIBRE

The **Extralink Kate** coupler is an irreplaceable equipment used to connect optical fibre cables. It provides protection against the influence of moisture on fiber optic fibers so it can be installed in underground cable ducts, cable trays and overhead solutions.

The included fiber optic trays give the possibility of laying 24 splice guards. The mounting brackets ensure that the cable is securely gripped, while preventing it from slipping out.
