Price: **159.00 zł** gross / 129.27 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGIMKFRMLON

Information:

Extralink H18 is a sports camera for children and active users, ideal for recording adventures, trips, cycling or outdoor play. It records video in 1080p or 720p quality at 30 fps, and thanks to the slot for a memory card of up to 32 GB, it can store many photos and long recordings. The durable construction with IP68 protection and waterproofness of up to 30 m with the included case performs well in difficult conditions, including during water sports. The mount allows stable attachment, e.g. to a bicycle, and the 900 mAh battery ensures longer operation. The camera also offers digital zoom and modes adapted to different lighting conditions.

Full product description

Sport camera for children - Extralink H18

The Extralink H18 sports camcorder is the perfect gift for active kids and more! Get your child a camcorder that will allow him to record his sports achievements, outdoor walks, bike rides and much more. A sports camcorder is also a great way to encourage your child to get out of the house and be active. Memory card space for up to **32 GB** makes enough room for long HD recordings and many photos. The digital zoom allows you to capture even distant targets. And after returning home, camcorder can be easily connected to a computer and rip photos and videos to share with friends or watch them on the big screen.

Robust construction

To perform well in the field and in any sport, the camcorder is built with durable materials and has a **high protection rating of IP68**. The device is **waterproof** with the included housing to up to **30 meters of immersion** which makes it rainproof and perfect for water sports. Holder and housing make it possible to attach the webcam to a bike, for example, and you do not have to worry about anything, Strong grip holds the camera and transparent housing effectively protects it from damage.

Versatile use

Robust design, high level of protection and water resistance make the sports camera from Extralink will pass the test on every trip and in every sport. **The included handle** allows you to securely attach the camera, for example, to handlebars of bicycles or skateboards. The powerful **900 mAh** battery provides long-lasting work and allows you to capture all the events of your trip to the pool or mountains. Advanced chipset allows you to take nice pictures not only in good light, thanks to different shooting modes you can adjust the camera. The advanced chipset lets you take nice pictures not only in good light, with different shooting modes you can match the camera to the conditions on the ground and take great pictures in sunshine or when it's cloudy.

Key features

- High IP68 rating and water resistance up to 30 meters (with included protective case)
- Video recording in 1080p at 30 frames per second and 720p at 30 frames per second
- Additional features such as a red-eye filter and an overcast shooting mode
- Memory card space of up to 32 GB
