Precise temperature measurement thanks to LED thermometer

The Extralink Kids bathtub is equipped with **an integrated LED thermometer** that provides a quick **reading of the water temperature**. With this feature, a parent can be sure that bathing is taking place in the right conditions, ensuring **the safety of the child**. The LED thermometer works reliably and shows the current temperature in real time, minimizing the risk of overheating or water that is too cool.

Ergonomic shape for toddler comfort

The bathtub is designed for **maximum comfort for the baby**. It has a **soft and ergonomic cushion** that is gentle on the baby's skin and provides comfort during bathing. Thanks to special clips, the cushion is securely attached to the edge of the bathtub, allowing the baby to be stable and comfortable.

Kąpiel w pozycji leżącej oraz siedzącej

Easy to store and foldable design

The Extralink Kids tub is **foldable**, which makes it easy to store, especially in smaller rooms. When folded, its height is only **10 cm**, so it will fit even in a small cabinet. This solution is ideal for parents who appreciate functionality and space saving.

High-quality materials for safety and durability

The bathtub is made of **silicone and the highest quality materials**, which ensures long-lasting use and resistance to damage. The product is **safe for the baby**, and the materials used are friendly to the skin of the toddler. In addition, it is easy to keep it clean, which is especially important for daily use.
