Product features

Maximum load weight	10 kg
Coating	Galvanized coating
Material	Stainless steel
Number of holes	4
Hole diameter	8 mm
Product colour	Steel
Type	Angle bracket
Designation	General purpose

Full product description

Wall bracket for mounting the antenna on the wall

Steel wall bracket allows to mount the antenna e.g. on the facade of the building. The use of galvanized steel ensures **resistance to corrosion** and other damages.

How to mount the antenna on the wall?

The brickwork bracket with a height of 250 mm, arm length of 200 mm and diameter of 38 x 1.5 mm allows for easy attachment of a satellite or terrestrial antenna **to the facade, wall and other flat surfaces.**
