Product features

Maximum load weight	12 kg
Coating	Galvanized coating
Material	Stainless steel
Number of holes	4
Hole diameter	8 mm
Product colour	Steel
Type	Angle bracket
Designation	General purpose

Full product description

Wall bracket for stainless steel antenna

Robust stainless steel brick holder with satin finish allows to mount the antenna e.g. on the building facade. Thanks to the use of stainless steel the bracket is **resistant to adverse weather conditions**.

How to mount the antenna on the wall?

With a 250 mm high brickwork holder, 200 mm arm length and 38 x 1.5 mm diameter, a satellite or terrestrial antenna **can be easily attached to the facade, wall and other flat surfaces.**
