Product features

Maximum load weight	15 kg
Mounting kit	Yes
Coating	Zinc coating
Material	Stainless steel
Number of holes	4
Product colour	Steel
Type	Angle bracket
Designation	General purpose

Full product description

Bracket for mounting a satellite dish on the balcony

The robust steel balcony holder is a good choice for people living in bunker houses or blocks of flats. The shape and dimensions of the holder allow for comfortable mounting of the antenna on the railing. The use of galvanized steel ensures **resistance to corrosion** and other damage.

How to mount the antenna mount on the balcony

The handle is 250mm high, 300mm arm length and 38x1.5mm diameter. It is mounted by means of a cybranch, so **there is no need to drill**. Installation of the antenna bracket is easy and quick, as well as possible change of its position.
