Full product description

Bracket for mounting the antenna on the wall

Robust, **steel wall bracket** allows to mount the antenna on the facade of the building. The use of galvanized steel ensures **resistance to corrosion** and other damage.

How to mount the antenna on the wall

By means of a 250 mm high brickwork holder, 700 mm arm length and 38 x 1.5 mm diameter, a satellite or terrestrial antenna **can be easily attached to the facade, wall and other flat surfaces.**
