Full product description

Pigtail LC/UPC SM 900UM G.657A 1M

Pigtail Extralink with **LC/UPC** connector is made on a **single-mode G.657A** fiber, which is dedicated for **FTTx** technology. This fiber is characterized by **reduced bending radius**, without increasing attenuation. This is a very important feature during the construction of FTTx networks due to the large number of changes of optical line direction and because of the small size of cabinets and distribution boxes. Pigtail is used mainly in **client cable terminations** in the customer's sockets and in **distribution boxes**.
