Full product description

Looking for a reliable connection cable? Extralink LC/UPC-LC/UPC Patchcord - is the perfect choice

Designed for superior performance and durability, this 1.5m single-mode duplex patchcord will prove its worth in any professional installation. Thanks to its advanced technical parameters and robust construction, it guarantees trouble-free data transmission in widely understood FTTH networks.

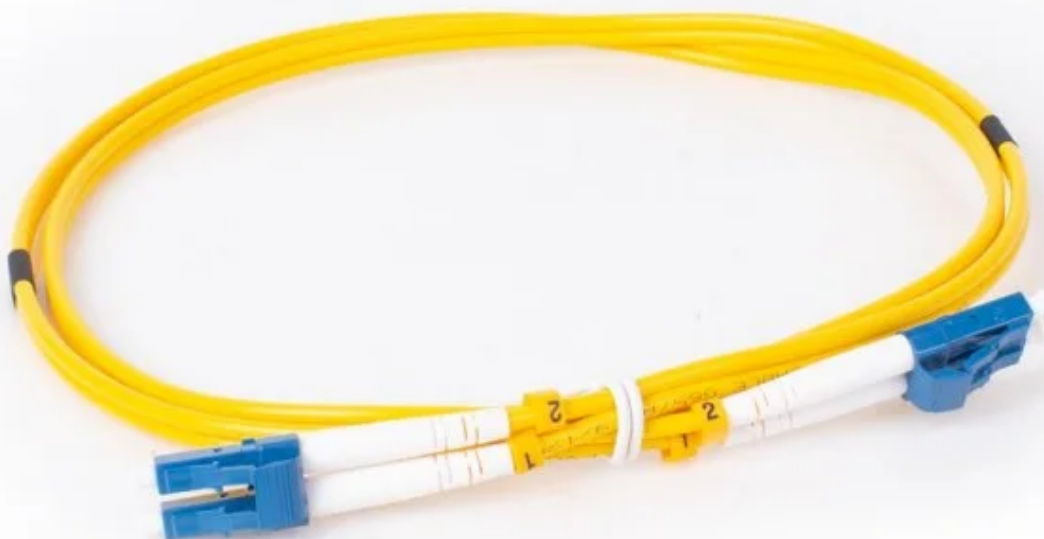

Reliable quality and durability

Extralink patchcord is made of the highest quality materials, which ensures longevity and resistance to mechanical damage. The nylon-PVC jacket protects the optical fiber from damage, while maintaining flexibility and ease of installation. The patchcord's terminations with ceramic LC/UPC plugs guarantee **a perfect fit and minimal signal loss.**

High transmission efficiency

Extralink's [single-mode](#) duplex patchcord is ideal for connecting OLT devices and other network equipment. Thanks to its precision manufacturing and low optical loss, it provides **a stable and fast connection** even over long distances. It is widely used in FTTH networks for connecting equipment and in professional telecommunications solutions.

Ease of installation and operation

Extralink patchcord is characterized by simplicity of use, thanks to plug-type connectors
