Full product description

Three cases in the set

The 3-in-1 set includes three round cases in different sizes. They make it easier to separate larger cosmetics, make-up products, jewellery and small accessories. The holographic finish gives the set an eye-catching look on a dressing table.

Mirror at hand

The lid of the large case contains a mirror, allowing you to apply or touch up your make-up without reaching for extra accessories. The pink lining creates an attractive interior for cosmetics, brushes and skincare products.

Order while travelling

The compact cases can be conveniently arranged in a bag or suitcase. They allow you to sort your cosmetics before travelling and take the whole set or just selected items, depending on the length of the trip and your planned needs.

Space for various accessories

The large case will hold skincare products and larger containers, the medium one is ideal for colour cosmetics and brushes, and the small one helps organise jewellery and little items. This division makes it easier to quickly find what you need.

Convenient carrying

Chrome handles make it easy to carry each case separately, and zip fastenings help keep the contents inside. The set is ideal for everyday use at home, trips away and make-up work.
