Manufacturer: EXTRALINK

Referention number: DNXGGNQOHRMMPL

Information:

A set of three cosmetic cases in different sizes makes it easier to store and organise cosmetics, jewellery and small accessories. The large case can hold bigger containers and has a mirror in the lid, the medium one is ideal for everyday products, and the small one for little items. Their compact form also makes the cases perfect for travel. The metallic pink finish with chrome handles and zips adds elegance, and the practical zip fastenings help keep everything tidy.

Full product description

Three cases in the set

The set includes three cosmetic cases in different sizes. The large model will hold bigger containers, the medium one is ideal for everyday cosmetics, and the small one makes it easy to store jewellery and small accessories.

Mirror always at hand

The lid of the largest case contains a mirror, which makes applying and touching up make-up easier. The pink interior offers space for brushes, colour cosmetics and daily skincare products.

Ready for travel

The compact cases can be conveniently packed into a suitcase and taken on a weekend trip or a longer holiday. The separate sizes let you choose only the items from the set that will be needed while travelling.

Order to suit your needs

The three sizes help divide the contents by use. The larger case can store cosmetics and accessories, while the smaller models can be used for make-up products, jewellery or other small items.

Style on your dressing table

The metallic pink finish with a subtle sheen means the cases also serve a decorative function. Chrome handles and matching zips complete their attractive look.

Easy storage

The cases can be placed together on a shelf or arranged in different parts of the wardrobe. The handles make them easy to carry, and the zip fastenings help keep cosmetics and accessories neatly in place.
