Price: **99.48 zł** gross / 80.88 zł net

Manufacturer: EXTRALINK

Referention number: DNXGJPJOJRMMPH

Information:

A modern toothbrush with a U-shaped head provides quick, convenient and effective cleaning of the entire jaw at once. Soft silicone gently cleans the teeth, interdental spaces and hard-to-reach areas, helping to protect the gums from irritation. Cold light technology supports the removal of deposits and discolouration, delivering a whitening effect and a feeling of freshness. The device offers 3 operating modes: Strong, SPA and Soft, making it easy to adapt to your needs. The 300 mAh battery ensures convenient use, and the elegant charging station saves space in the bathroom.

Full product description

Comfortable smile care

Gain more time in the morning thanks to a solution that **frees your hands** during your daily hygiene routine. This toothbrush helps keep your mouth clean with almost no effort, allowing you to focus on getting ready for the day while it does the work for you. It is a combination of convenience and care for a **snow-white smile** every day.

Effectiveness in every nook and cranny

The special design means the device **reaches hard-to-access areas** that are often missed during traditional brushing. The soft silicone offers gentle yet effective cleaning of tooth surfaces and interdental spaces. As a result, each session helps maintain **healthy gums** and freshness without irritation.

Dociera w ciężko dostępne miejsca

Advanced technology for a bright smile

The use of **cold light technology** helps remove yellow deposits and discolouration, offering a whitening effect with every brush. The device thoroughly **cleans food residue**, ensuring comprehensive hygiene and sterilisation of the mouth. Regular use helps maintain the natural whiteness of teeth without the need for harsh products.
