Full product description

Hassle-free Operation Without Battery

The safe is equipped with a **mechanical drive** that does not require any batteries to operate. This solution ensures **reliability and convenience of use**, eliminating the risk that the safe will stop working due to discharged batteries. This makes it an ideal choice for **long-term storage of valuable items**, without having to worry about having to replace batteries.

**Trouble-free
operation without batteries**

Code opening

Emergency key opening

**High
quality safe**

**Anti-burglary
construction**

Easy installation

Security Against Burglary

The safe features **a thickened deadbolt** that effectively prevents attempted break-ins and theft. The bolt is designed to **resist force and tampering**, making it an extremely effective barrier against unauthorized access. As a result, the safe provides **a high level of protection** for stored items, giving the user a sense of security.

Uncompromising security for years

Solid Steel Construction

The entire body of the safe is **cast steel**, which ensures its **extreme durability and resistance to damage**. The steel construction prevents attempts to break the safe, making it extremely resistant to intensive tampering. This type of **solid workmanship** ensures the longevity of the safe and its reliability in protecting stored items.

Storage security Protected from children and thieves!

Vulnerable Doors

The safe is equipped with **a flat door design** that is solid and **resistant to being undermined**. Thanks to this design, the safe effectively prevents any attempt to get into its interior with manipulative tools. This solution **enhances** the **security of the safe**, providing the user with confidence that the stored items are well protected.

Code-mechanical safe

Anti-burglary construction

No power
required

Compact size

Double opening
(code + emergency key)

Resistant to all damage

Dimensions, Colors and Accessories

The safe is available in the **classic colors of black and brown**, which allows it to match different interiors, both home and office. Its **compact dimensions (30x36x30 cm)** make it spacious enough to store valuable items, while not taking up too much space. All **the necessary accessories** are included: two keys, two expansion bolts, four foot pads and an instruction manual, ensuring **easy installation and comfort** of the safe.

RELIABLE PROTECTION WITHOUT ELECTRONICS

Secure access without batteries The safe operates on a mechanical code, which requires no power – always ready for use, regardless of conditions.

Precision combination lock and additional emergency key as a form of security

SECURE ACCESS METHODS
