Information:

Extralink 33-RCA is a practical safe for home and office use, ideal for storing cash, documents, jewellery, keys and other valuable items. The electronic keypad with code provides quick and convenient access, while the emergency opening option increases ease of use and security. The sturdy metal casing and lockable door help protect the contents from unauthorised access. The safe can be mounted in a wardrobe, desk or against a wall, making it easy to position discreetly and securely. It is a functional solution that helps keep things organised and protect important items every day.

Full product description

Safe for home and office

The Extralink 33-RCA safe is a practical solution for storing cash, documents, jewellery, keys and other important items. It works well in a flat, office, reception area, study or service point, where quick access to the contents and better organisation of valuable items matter.

Bezkompromisowe bezpieczeństwo na lata

Odporność na wyważanie

Zasilany bateriami

Możliwość przykręcenia do ściany
(w zestawie śruby montażowe)

Odporność na uderzenia

Odporna powłoka zewnętrzna
(rdza, zarysowania)

Secure storage

The safe's design helps protect the contents from accidental access by third parties. The lockable compartment means documents, money and small valuables can be stored in one organised place. It is good support in everyday protection of items that should remain out of reach of household members, customers or employees.

Bezpieczeństwo przechowywania

Chronione przed dziećmi i złodziejami!

Convenient control panel

The electronic panel allows the safe to be opened using a code, making it simple and quick to use. The buttons are arranged clearly, which makes everyday operation easier. This solution works well when the safe is used by one person or designated employees.

Sejf elektroniczny

- Otwieranie na kod i odcisk palca
- Duża pojemność
- 5 stalowych rygli blokujących
- Zewnętrzny moduł bateryjny
- Awaryjne otwieranie na kucz
- Nowoczesny panel dotykowy
- Solidna stalowa konstrukcja

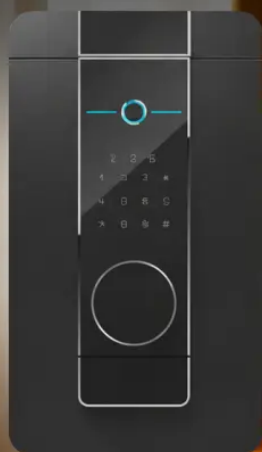

Solid casing

The metal construction ensures the safe's durability and increases resistance to everyday use. The rigid casing and lockable door help limit access to stored items. The safe fits well into office and home spaces where a dedicated place for valuables is needed.

Maksymalne bezpieczeństwo i nowoczesna obsługa!

Intuicyjny panel dotykowy umożliwia szybkie wprowadzenie hasła i łatwą obsługę codzienną.

Sejf Extralink XP-70 wyposażony jest w podwójny system alarmowy, który reaguje na próby włamania i manipulacji.

Thoughtful interior

The safe's interior allows documents, a wallet, keys, data storage devices, cash or other small items to be arranged conveniently. The simple compartment makes it easy to find what you need quickly and helps keep things tidy. This is especially useful in places where valuable items are often put down and taken out.

Emergency access

The safe is equipped with an emergency opening option, which helps maintain access to the contents if the batteries run out or the code is forgotten. It is a practical solution that increases ease of use and means the safe can be operated without unnecessary complications.

Extralink Lock Star XP-70

- ✓ Drzwi równo osadzone – odporne na wyważenie
- ✓ 5 solidnych rygli (20 mm)
- ✓ Alarm niskiego poziomu baterii
- ✓ Bezpieczny dostęp na 3 sposoby
- ✓ Haczyki na klucze / zawieszki
- ✓ Zaawansowany Panel Z Biometrycznym Czytnikiem Linii Papilarnych
- ✓ Sejf posiadający prywatną szafkę wewnętrzną

Zwykły sejf (tani zamiennik)

- ✗ Luźne drzwi – łatwe do wyważenia
- ✗ Tylko dwa cienkie rygle (15 mm)
- ✗ Brak funkcji wyciszenia
- ✗ Brak ostrzeżenia o słabej baterii
- ✗ Brak opcji kodu lub haczyków
- ✗ Stała półka – brak elastyczności

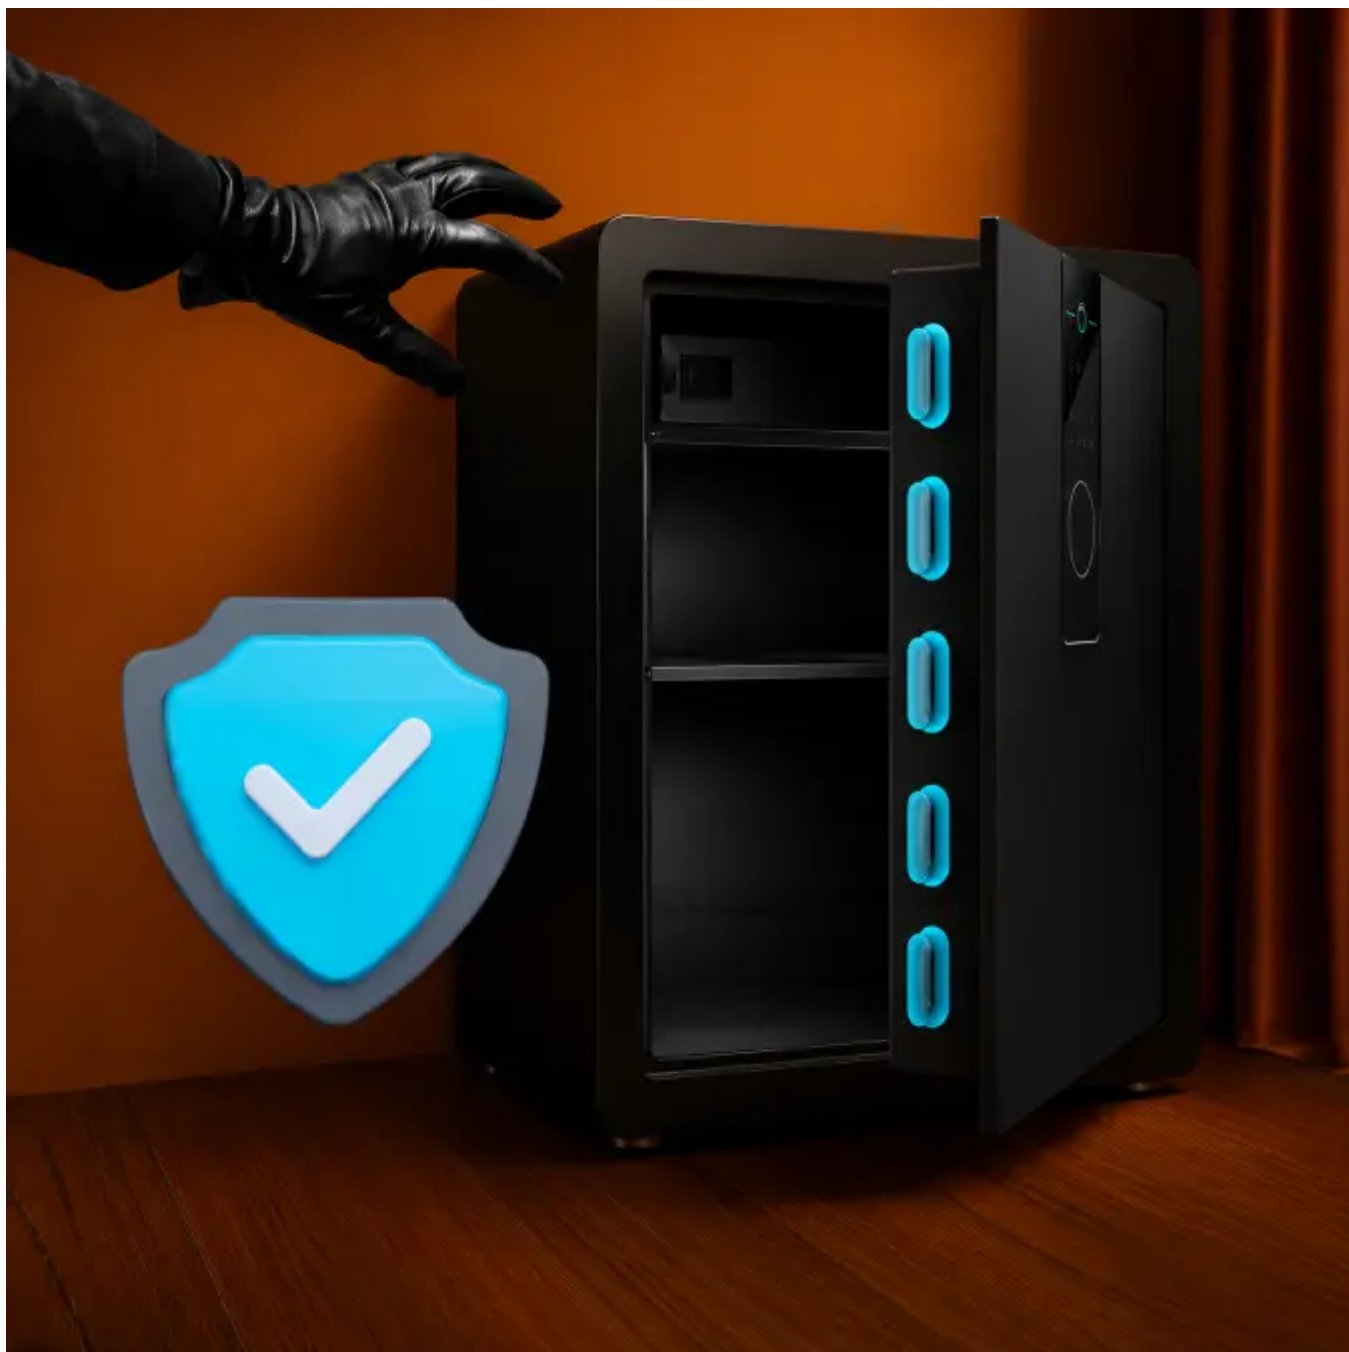

Installation in a chosen location

The safe can be placed in a wardrobe, desk, built-in unit or another discreet location. The option to secure it to the floor or wall helps reduce the risk of the safe being moved by an unauthorised person. As a result, the product works well both at home and in a business environment.

For documents and cash

The 33-RCA model is suitable for storing contracts, passports, cards, money, jewellery and small electronics. The enclosed space helps organise items that are easy to lose or that require greater access control. It is a practical choice for everyday use.

A practical everyday choice

The Extralink 33-RCA combines simple operation, a metal construction and convenient access to the contents. It helps secure the most important items at work or at home, while not requiring complicated setup. It is a functional safe for people who want to take better care of their belongings.

Trzy bezpieczne sposoby odblokowania

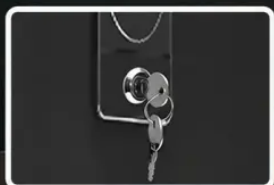

Odcisk palca

Szybki i bezpieczny dostęp dzięki biometrycznemu czytnikowi

Kod PIN

Spersonalizowane hasło chroni zawartość sejf

Klucz awaryjny

Niezawodne otwarcie w sytuacjach awaryjnych
