Full product description

Multiple Theft Protection

Lock Star outdoor mailboxes provide **advanced theft protection** with a secure **internal hinge**. Parcels stored in the box are properly protected from unauthorized access. The box is equipped with **a large anti-theft** device and reinforced bolts, making it resistant to tampering attempts. In addition, hydraulic support rods effectively absorb shocks, ensuring that parcels **remain intact**.

Durability and Damage Resistance

Lock Star boxes are designed with **durability in mind**. They are made of 0.8 mm thick **galvanized steel**, which provides them with exceptional resistance to mechanical damage and corrosion. The special paint coating used protects the box from rust and scratches, which significantly **extends its life**. Thanks to these properties, the boxes provide **long-lasting protection** for packages for many years, achieving a lifespan of up to 10 years.

Water Resistance and Resistance to Atmospheric Conditions

Lock Star mailboxes offer **strong IPX3 water resistance**, which means they can withstand rain, snow and harsh weather conditions. Thanks to **the slanted design**, parcels will remain dry, clean and intact even during heavy rainfall or extreme weather conditions such as typhoons. This feature provides **unparalleled protection for shipments**, regardless of the weather.

Capacity and Functionality

Lock Star outdoor mailboxes are characterized by **a spacious capacity** that allows you to store parcels weighing between 15 and 20 kg. The maximum parcel size that will fit in the box is 35 x 22 x 10 cm. The box will accommodate not only parcels, but also mail and magazines, so **you can save time** and avoid the need to frequently pick up parcels. This is an ideal solution for **better management of parcels and mail**.

Easy Installation and Convenient Use

The safe is **easy to install**, thanks to a set of screws and **four pre-drilled holes** in the back wall. You can attach it to a wall, porch or curbs in **just three easy steps**. Thanks to this simplicity of installation, you can quickly and easily install the mailbox anywhere, giving you **convenient access to your packages** at a convenient time and place.
