Full product description

Extralink Military Thigh Holster for Weapons - Functionality and safety at the highest level.

The Extralink Military Thigh Holster is an indispensable piece of equipment for those who value comfort, safety and functionality when performing tactical tasks. Thanks to its universal design, the holster fits the majority of popular pistol models, and full adjustment allows you to customize it to your individual needs.

Versatility and fit

The holster is designed to fit most commonly used pistol models, **making it a versatile solution** for any user. The fully adjustable mounting straps allow for a perfect fit to your body and preferences, ensuring maximum comfort.

Security and quick access to weapons

The holster is equipped with sturdy gun safeties, ensuring that your gun stays in place even in dynamic situations. Velcro, tension and **fastex buckles** allow you to fasten it quickly and securely, as well as instantly retrieve your weapon when needed, increasing your safety in the field.

Convenience and functionality

Thanks to its adjustable carrying system, **the Extralink Military holster** fits perfectly around the leg and tactical belt, ensuring stability even during heavy movement. An additional magazine pocket and a loader for additional ammunition are practical additions that make it easy to transport supplies.
