Information:

Extralink Military is a durable, waterproof tactical backpack with a capacity of 30 l, ideal for school, university and travel. Made from abrasion-resistant 600D polyester with a PVC coating, it features reinforced seams and a robust construction for long-lasting durability. Two main compartments, internal pockets and external zip pockets make organisation easy, while the MOLLE system allows additional accessories to be attached. Adjustable shoulder straps, a chest strap and a hip belt, as well as breathable MESH 3D mesh, ensure comfortable all-day wear.

Full product description

Extralink Military Tactical Travel School Backpack - convenience and functionality for every day.

The Extralink Military School Travel Tactical Backpack is the perfect solution for people who need a durable, roomy yet compact backpack for everyday use, whether at school, college or on the go. With a capacity of 30 liters, it offers enough space for all your essentials, while the durable 600D polyester construction with PVC coating ensures long life and resistance to abrasion and water.

Durable and waterproof construction

The backpack is **made of durable 600D material with additional PVC coating** and is resistant to mechanical damage and water. This ensures that your belongings will be safe even in harsh weather conditions. The duplicated stitching and reinforcements further increase the backpack's durability, making it an ideal choice for long-term use.

Thoughtful organization of space

The backpack offers two main compartments and additional interior pockets that allow you to easily organize the contents. **Two external zippered pockets** are ideal for smaller items you need quick access to. **The MOLLE system** allows you to attach additional equipment, which greatly increases the functionality of the backpack.

Comfortable to wear all day

Thanks to the adjustable suspenders, chest strap and waist belt, the backpack adjusts to your figure for comfortable carrying even for long periods of time. **Breathable MESH 3D mesh** on the back and suspenders improves air circulation, which reduces sweating during hot days, ensuring comfort even in demanding conditions.
