Full product description

Extralink Military Sachet Fashionable Military Tactical Hip Bag - Style and functionality in one.

Thanks to its sturdy construction and well-thought-out design, the pouch is perfect for both urban hustle and bustle and demanding backcountry expeditions. Designed with durability and versatility in mind, it is an indispensable choice for those who need to have their most important items always at hand.

Durability and water resistance

The pouch is made of the highest quality materials, which ensure its exceptional durability and resistance to damage. **The waterproof design** effectively protects **the** contents from moisture, so you don't have to worry about your belongings, even during unpredictable weather. It's a reliable companion in all conditions.

Practical organization of space

The pouch offers two main compartments to hold essential items such as phone, wallet, keys or small tools. An additional **pocket for a flashlight or pen** makes it easy to quickly access the accessories you need. With such organization, you always have everything at hand and in full order.

Universal attachment and comfortable to wear

The pouch is equipped with a variety of attachment options, allowing it to be worn on the hip or clipped to a backpack, belt or other piece of equipment. **Three webbing straps with a grommet** on the back allow it to be attached to the MOLLE system, increasing its versatility and flexibility in use. In addition, a carabiner mount gives you even more mounting options.

Robust construction and stylish design

The brown-colored pouch features a rugged military design that blends perfectly with both urban and outdoor styling. **The snap closure and zippers** ensure **the** security of the stored items, while allowing easy and quick access to them.
