Full product description

Extralink Military Tactical Survival Strap - reliability in all conditions.

This belt is designed for lovers of outdoor, survival and tactical activities, offering reliability and wearing comfort. Thanks to the use of high-quality materials and durable construction, this belt is perfect for both everyday activities and extreme situations.

Durability at the highest level

The belt, made of **nylon webbing** and **metal alloy**, guarantees extreme durability and resistance to abrasion and damage. A buckle with a **strength of 12 kN** (more than 1,200 kg) provides a secure fastener that will not fail even in the toughest conditions. An additional **24 kN strength in the loop** makes the belt suitable for use in extreme situations, such as securing equipment.

Wearing comfort and perfect fit

Thanks to **the elastic loops**, the belt perfectly adapts to the figure, regardless of the situation. Its **length of 120 cm** and **width of 35 cm** make the belt fit perfectly on the hips, without causing discomfort or restricting movement. This is a key element during prolonged field activities.

Versatility and functionality

The Extralink Military Tactical Strap is a versatile tool that will perform well both in everyday use and in demanding conditions. Thanks to its sturdy construction and **67 cm wide buckle**, it can be used as an additional support in emergency situations, for example, to attach equipment or as a supportive element in difficult terrain.

Stylish design and practicality

The belt is available in a classic **brown color**, which blends perfectly with tactical attire. Its minimalist yet elegant design makes it not only a functional piece of equipment, but also a fashionable addition to any outfit.
