Referention number: DNXFMPISLRMNKL

Information:

Extralink NT-T002 is an impact tool for crimping cables in LSA technology, designed for installation work in telecommunications. It facilitates the installation of wires in telephone sockets, network sockets, connectors and junction boxes. It is equipped with scissors for cutting off excess wire cores, a special hook for pulling the wire out of the connector, and an element for removing the connector from the socket. As a result, it ensures quick, precise and convenient cable connections.

Product features

Holder material	Plastic
Compliance certificates	CE
Blade material	Hardened steel
Product colour	Grey

Full product description

Extralink impact crimping tool NT-T002

Extralink NT-T002 is designed for impact crimping of cables to LSA technology terminals. **The tool** is equipped with scissors for cutting the long ends of cable wires, a special hook for pulling the wire out of the connector and an element for removing the connector from the socket. **Impact crimping tool** used in telecommunication installations in telephone and network sockets, connectors, boxes, etc.
