Price: **249.00 zł** gross / 202.44 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGKHLRMMJL

Product features

LED indicators	Power
Heating capacity	2500 W
Remote control included	Yes
Thermostat control type	Mechanical
Portable	Yes
Adjustable thermostat	Yes
Suitable for room area up to	25 m2
Safety switch	Yes
Operating fluid	Oil
Indication light	Yes
On/off switch	Yes
Easy to install	Yes
Amperage	10.9 A
Wi-Fi	No
Bluetooth	No
AC input frequency	50 Hz
AC input voltage	220 V
Heating power (min)	1000 W
Heating element type	Oil
Placement options	Floor

Suitable for	Indoor
Product colour	White
Watch case material	Metal
Type	Oil electric space heater

Full product description

Extralink oil heater with a power of 2500 watts.

Put comfort first with **Extralink's 2500-watt oil-filled radiator**, featuring a unique thermal gap design that maximizes heat transfer while maintaining surface temperature. The result? Better heat that doesn't dry out the air or stir up dust, hair or other allergens. The biggest advantage of the heater is that it emits a large amount of heat. Even in the event of a sudden power outage, it will maintain a certain temperature for a long time.

Key features of the Extralink oil heater

- Simple control - easily adjust power level and temperature
- Maintenance-free - the oil system is permanently sealed, so you don't have to worry about refilling it
- Lower energy bills - by heating only the room you are in, you can lower your home thermostat and reduce your energy bills
- Easy to move - our heater has smooth wheels for easy movement, you can use it in any room in the house
- High level of safety - overheat protection, fully enclosed heating elements and gently rounded design

High operating culture

Since the oil system is permanently sealed and does not need to be replaced, it has a long service life. The heater is quiet during operation, so it is ideal for use in bedrooms, living rooms and offices, and is more suitable for families with the elderly and children.

3 heating modes

Our heater is suitable for medium to large rooms that need a constant temperature during cold seasons. The heater offers three modes to choose from (1000 W/1500 W/2500 W).

Convenient handling

4 swivel casters and a sturdy carrying handle make it easy to transport the heater from room to room. Enjoy warmth anytime, anywhere.

Thoughtful design for optimal heat emission

The unique 11-section thermal gap design maximizes heat flow into the room while keeping the radiator surface temperature low.

Protection against overheating

The Extralink oil heater will automatically shut off in the event of overheating or malfunction and reset itself when the temperature drops to normal levels.
