Full product description

Pet grooming at home - simple and convenient

Frequent visits to a groomer are a considerable expense, but now you can take care of your dog's coat at home. **The Extralink Pets dog clipper** is a practical device for four-legged owners that allows for easy and precise clipping. Thanks to its **cordless design, 4 interchangeable tips and ceramic-titanium blade**, clipping is fast, convenient and safe for your pet.

Powerful blades - precise cutting without tugging the hair

The dog clipper is equipped with ceramic and titanium blades, which guarantee a clean and even cut without tugging. **The blades are wear-resistant**, which means they retain their sharpness for a long time. This is important, **especially when clipping breeds with dense hair**, where ordinary razors can have trouble cutting smoothly.

Cordless operation - freedom of movement during shearing

The razor runs on both a rechargeable battery and a cord, giving you full flexibility in use. **It can run for up to 240 minutes on a single charge**, which is enough for several clipping sessions. The lack of cables means convenience and the ability to maneuver freely, **without the risk of entanglement**.

4 interchangeable attachments - adjustable length of cut

The kit comes with **4 comb tips (3mm, 6mm, 9mm, 12mm)** that allow you to adjust the length of the haircut to suit the breed and owner's preference. You can choose a short cut for easier grooming of the coat, or a longer cut if your dog is more comfortable with fluffy fur. This is a good clipper for both small **and large dogs and cats**.

Full grooming kit - comb, scissors and file included

In addition to the razor, the kit includes **a comb for combing**, scissors for precision touch-ups and a claw file. This gives you everything you need for comprehensive grooming of your pet in one set. Such a set **will work well for both home shearing and professional use.**

Contents of the kit

- 4 interchangeable comb tips (3 mm, 6 mm, 9 mm, 12 mm)
- Comb for detangling hair
- Scissors for precision cutting
- Claw file
- Charger
- Owner's manual
