### Full product description

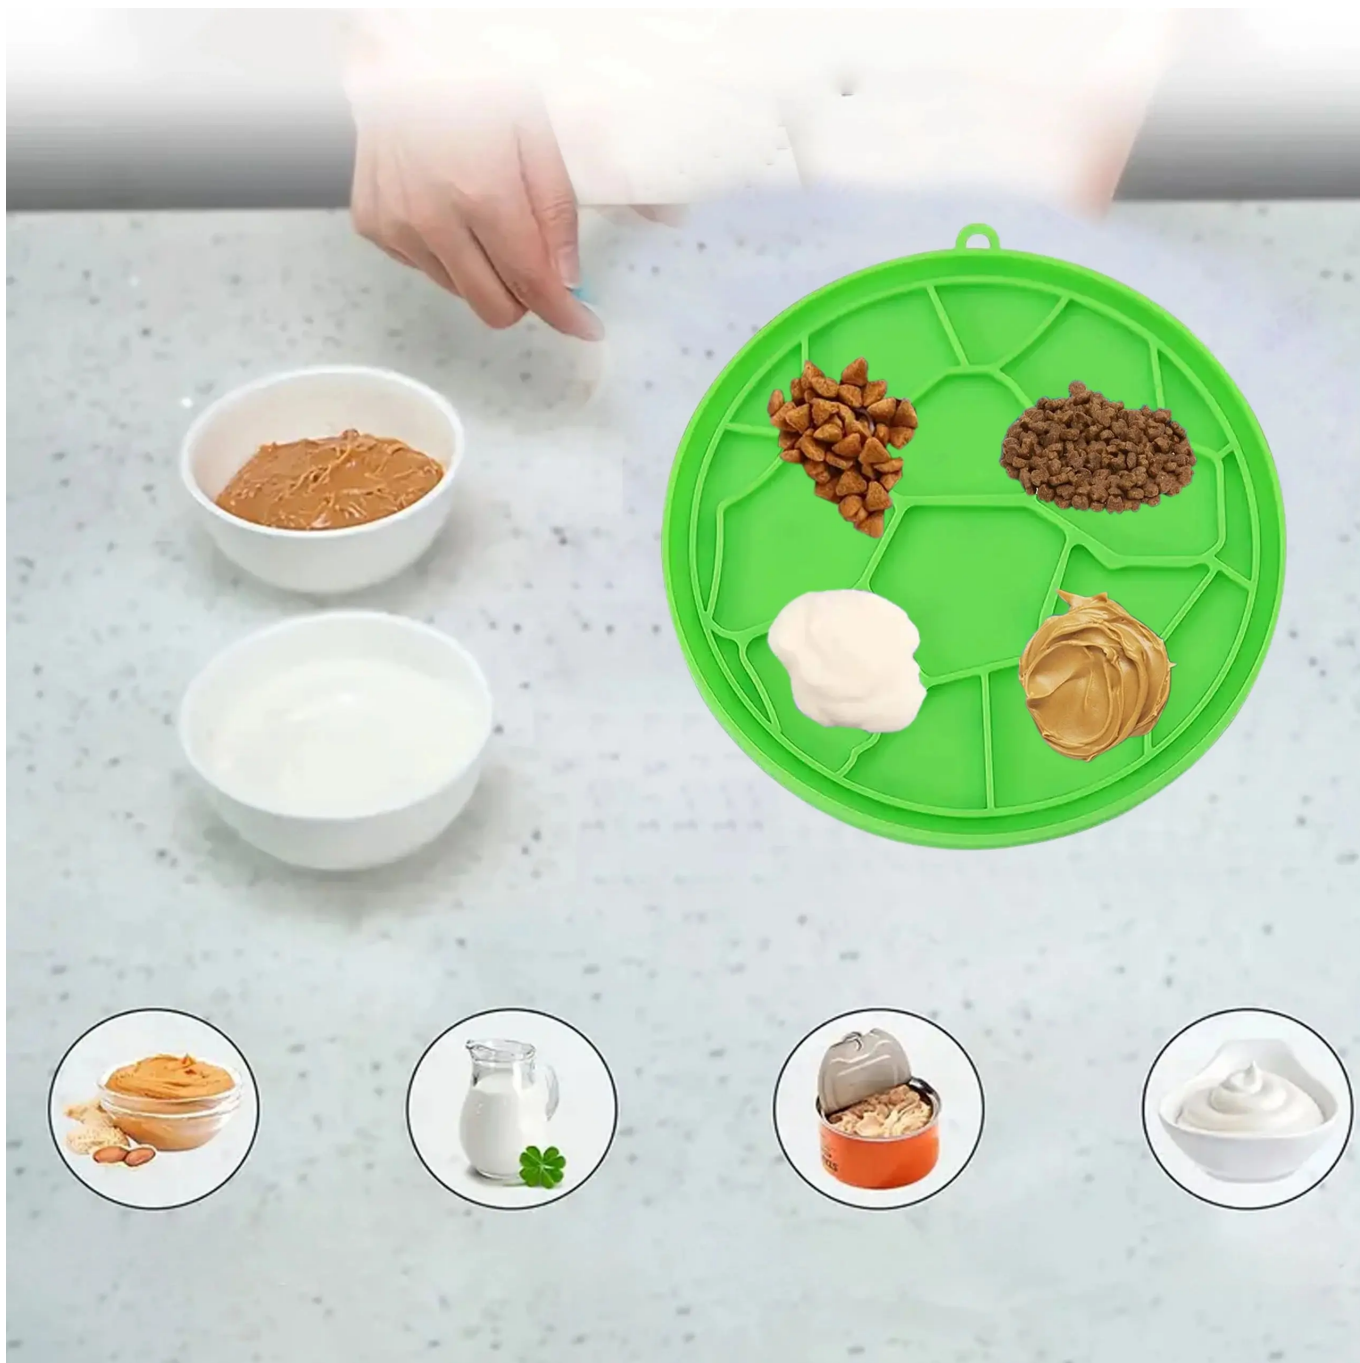

### Anti-stress Licking Tray - Relaxation and Calm for your Pet!

Keep your dog or cat comfortable and healthy with the Extralink Pets Licking Tray Mat, which is ideal for stressful situations and everyday playtime. This innovative mat helps pets calm down and de-stress while providing valuable entertainment. It is the perfect accessory to support situations such as a vet visit, travel or grooming, keeping your pet soothed and occupied.

## Reduction of stress and anxiety

The Extralink Pets anti-stress mat effectively helps relieve stress, which can be useful during vet visits, bathing or claw clipping. **Licking is a natural way for pets** to calm down, which makes the mat have a calming effect. This will make your pet calmer and more relaxed in stressful situations.

## Improving oral hygiene

The mat is equipped with **rubber tabs** that massage your pet's gums and tongue to promote oral hygiene. When licked, food debris and bacteria are removed, promoting healthy gums and fresh breath. Regular use of the mat can help reduce bacteria and keep the mouth clean.

# 25 min

## Slowing down food for better digestion

For pets that eat too quickly, the mat offers a **slower** eating feature that promotes healthy digestion. Special grooves require your pet to spend more time extracting treats, which promotes slower food consumption. This, in turn, helps avoid stomach problems and promotes proper digestion.
