Full product description

Backpack for cat dog carrier ventilated bag pet playpen

Ensure your pet's comfort and safety during any trip with the Extralink Pets transport backpack. This is the perfect solution for owners who want to have their pet always with them. With its sturdy construction and carefully designed design, your pet will feel comfortable and you will gain peace of mind knowing that it is completely safe.

Excellent ventilation and comfort

Ventilation holes in the backpack guarantee great airflow, allowing your pet to breathe freely even during long trips. The mesh windows not only provide ventilation, but also allow your pet to observe its surroundings, which helps reduce stress and makes the trip more comfortable.

Safety first

Your pet's safety is our top priority, which is why our transport bag has a special central compartment for maximum protection and convenience during travel. Robust construction and additional safety features ensure that your pet is safe and the transport will go smoothly.

Ergonomic and comfortable design

The ergonomic design of the backpack guarantees comfortable carrying, even during prolonged use. Padded, adjustable suspenders and chest straps evenly distribute weight, reducing fatigue and providing comfort during long walks and excursions. In addition, the backpack is easy to clean - it can be washed at low temperatures.
