Manufacturer: EXTRALINK

Referention number: DNXGGJILKRMH0

Information:

Extralink fibre glass cable pulling rod 3.8 mm, 100 m is a durable FRP cable rod for fast and convenient cable routing. Its flexible design is resistant to bending and breaking, and the yellow PE sheath improves protection and slip. The practical reel on a blue stand with a manual lock makes it easy to transport, store and unwind the fibre. The guiding head helps with precise cable insertion. Ideal for telecommunications work, laying cables under roads, in suspended ceilings, in protective conduits, and for clearing pipes and drainage systems.

Product features

Rod length	100 m
Rod diameter	3.8 mm
Product colour	Yellow

Full product description

Extralink 3.8mm 100m glass fiber for cable pulling

A **100-meter-diameter Fiber Reinforced Plastic (FRP) glass fiber with a diameter of 3.8 mm** is used as a cable pulling pilot, equipped with a unique reel for convenient deployment. This fiber is highly flexible and resistant to bending and tearing, covered with a yellow PE plastic sheath that serves as an additional shield and provides good lubricity.

Extralink Pilot

3.8mm 100m

professional FRP fibreglass
cable pulling pilot, mounted
on a stable stand.

This powder-coated blue rack is equipped with a **manual lock to secure the drum** and a **specific "eyelet" to guide the fiber**. The stand is specially designed for efficient transportation, storage and use. The fiber is equipped with a **guide head** at the end.

**The rack's clever design
makes it easy to transport
and store the unit**

Application of the Extralink remote control

Robust and flexible FRP glass fibre

resistant to bending and fracture, covered with protective PE plastic

**Sturdy,
powder-coated
stand with manual
brake to prevent
accidental unfolding**

Flexible and extremely flexible FRP glass fibre

ideal for harsh environments

The ideal tool for pulling cables in electrical, fibre optic and telecommunications installations
