Price: **410.00 zł** gross / 333.33 zł net

Manufacturer: EXTRALINK

Referention number: DNXGFNIPMRMMON

Information:

Extralink cable pulling rod 4.5 mm 100 m is a durable FRP fibreglass rod with a protective yellow PE coating, ensuring good slip properties and resistance to bending and tearing. The 100-metre length makes work easier over longer sections, while the practical stand with a powder-coated blue frame, manual brake and guiding eye improves convenience when unwinding, transporting and storing. The leading head end makes cable pulling easier. Ideal for pulling wires in manholes, under roads, in suspended ceilings, protective conduits, and for clearing pipes and ducts.

Product features

Rod length	100 m
Rod diameter	4.5 mm
Product colour	Blue

Full product description

Extralink 4.5mm 100m cable pulling pilot

Pilot for cable pulling made of FRP glass fibre **with diameter of 4.5 mm and length of 100 meters** placed on a special stand facilitating its unrolling. Fiber of high elasticity and resistance to bending and tearing, covered with yellow plastic PE acting as a protection and providing good sliding properties. Fiber rack powder coated in blue, equipped with a manual brake blocking the drum and a special "eyelet" to guide the fiber. The rack construction ensures functional transport, storage and use. The end of the fiber ended with guiding head

Extralink Pilot 4.5mm 100m

professional FRP fibreglass
cable pulling pilot, mounted
on a stable stand.

Application:

- Pulling cables between telecommunication chambers
- Pushing cables under roads
- Installations in false ceilings
- Cleaning, unblocking pipes, culverts, sewers
- Inserting cables into protective tubes

**The rack's clever design
makes it easy to transport
and store the unit**

Robust and flexible FRP glass fibre

resistant to bending and fracture, covered with protective PE plastic

**Sturdy,
powder-coated
stand with manual
brake to prevent
accidental unfolding**

Flexible and extremely flexible FRP glass fibre

ideal for harsh environments

The ideal tool for pulling cables in electrical, fibre optic and telecommunications installations
