Full product description

Extralink Pilot Cable Puller 5mm 150m

Pilot to pulling cables made of FRP glass fibre with **diameter of 5 mm and length of 150 meters** placed on a special stand facilitating its unfolding. Fiber of high elasticity and resistance to bending and tearing, covered with **yellow plastic** PE acting as a protection and providing good sliding properties. Fiber rack powder coated in blue, equipped with a manual brake blocking the drum and a special "eyelet" to guide the fiber. The rack construction ensures functional transport, storage and use. The end of the fiber ended with guiding head

**Application:**

- Pulling cables between telecommunication chambers
- Pushing cables under roads
- Installations in false ceilings
- Cleaning, unblocking pipes, culverts, sewers
- Inserting cables into protective tubes
