Price: **878.99 zł** gross / 714.63 zł net

Manufacturer: EXTRALINK

Referention number: DNXGFNIQGRMMKH

Product features

Rod length	100 m
Rod diameter	8 mm
Product colour	Yellow

Full product description

The remote control is made **of fiberglass**. It is used for pulling cables with **a diameter of 8 mm** and **a length of 100 meters**. The remote control was placed on a stand for easy unwinding. The durable fiber is extremely resilient and resistant to bending or breaking. It was covered with yellow plastic. It protects the fiber and provides better slip when unrolling the cable. The powder-coated frame on which the fiber is wound has an eyelet to help guide the fiber and a brake. The design allows the fiber to be carried and used freely.

Extralink Pilot

8mm 100m

professional FRP fibreglass
cable pulling pilot, mounted
on a stable stand.

Application

- Pulling cables between telecom manholes
- Pushing cables under roads
- Installations in suspended ceilings
- Cleaning, clearing pipes, culverts, drains
- Insertion of cables into casing pipes

**The rack's clever design
makes it easy to transport
and store the unit**

Robust and flexible FRP glass fibre

resistant to bending and fracture, covered with protective PE plastic

**Sturdy,
powder-coated
stand with manual
brake to prevent
accidental unfolding**

Flexible and extremely flexible FRP glass fibre

ideal for harsh environments

The ideal tool for pulling cables in electrical, fibre optic and telecommunications installations
