Price: **1,589.00 zł** gross / 1,291.87 zł net

Manufacturer: EXTRALINK

Referention number: DNXGFNIQIRMMLP

Information:

Extralink glass fibre cable pulling rod 8 mm, 200 m long, is a flexible and durable FRP rod for work in demanding conditions. The yellow PE sheath increases protection and slip, and the guiding head makes pulling cables easier. The practical powder-coated stand with a reel, guiding eyelet and manual drum lock ensures convenient unwinding, transport and storage. The product is suitable for pulling cables in telecommunication chambers, under roads, in suspended ceilings, and for clearing pipes and drainage systems.

Product features

Rod length	200 m
Rod diameter	8 mm
Product colour	Blue

Full product description

Extralink 8mm fiberglass cable pulling cable 200m

A **200-meter-diameter Fiber Reinforced Plastic (FRP) glass fiber with a diameter of 8 mm** is used as a cable pulling pilot, equipped with a unique reel for convenient deployment. The fiber is highly flexible and resistant to bending and tearing, covered with a yellow PE plastic sheath that serves as an additional shield and provides good lubricity.

Extralink Pilot

8mm 200m

professional FRP fibreglass
cable pulling pilot, mounted
on a stable stand.

This powder-coated blue rack is equipped with a **manual lock to secure the drum** and a **specific "eyelet" to guide the fiber**. The stand is specially designed for efficient transportation, storage and use. The fiber is equipped with a **guide head** at the end.

**The rack's clever design
makes it easy to transport
and store the unit**

Application of the Extralink remote control

Robust and flexible FRP glass fibre

resistant to bending and fracture, covered with protective PE plastic

**Sturdy,
powder-coated
stand with manual
brake to prevent
accidental unfolding**

Flexible and extremely flexible FRP glass fibre

ideal for harsh environments

The ideal tool for pulling cables in electrical, fibre optic and telecommunications installations
