Full product description

Extralink POLA 16 CORE: fibre optic box black

Extralink POLA 16 , i.e. lockable on circumferentially arranged clamps and Allen screws **fiber optic closure** offers the possibility of connecting 16 fibers placed in a strong, durable housing for outdoor applications.

Each box has an integrated mounting space and a commutation field for mounting SC simplex or LC duplex adapters. The set includes cascade mounted fiber trays for laying fiber casings.

The bus cables (max. 4 pieces) are inserted through adjustable openings. And the client drop cables are routed out through screwed-in crutches with gaskets to allow the repositioning of already finished cables with connectors.
