Information:

The Extralink SJ-33 sandwich toaster is a functional and convenient appliance with a modern design, ideal for any kitchen. The 1400 W power ensures quick and even heating, so sandwiches are always well toasted while retaining their flavour and texture. The built-in thermostat protects against overheating, and the heating and ready indicators make operation easy. The lock in the handle increases safety during use and transport, which is especially important in homes with children. Rubberised feet improve stability, and the cord storage compartment allows for convenient vertical storage. The lightweight, heat-resistant housing made from durable black plastic ensures strength and a long service life.

Full product description

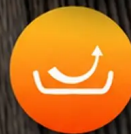

SANDWICH-MAKER XXL SJ-33

POWER: 1400W

Built-in
thermostat

Non-stick
ceramic coating

4 sandwiches
at once!

Extralink SJ-33 sandwich toaster is a convenient and functional device designed to make the process of preparing sandwiches a real pleasure. Its modern design, high performance and functionality make it an ideal accessory for the modern kitchen.

INDICATOR LIGHTS

The indicators show the start and end of the preheating process

LOCKING LATCH

The appliance is equipped with a latch that keeps the lid securely closed during toasting

Thanks to the non-stick coating, cleaning the plates is extremely easy. The option to store it upright makes it convenient to keep.

Thanks to its high power of 1400 W **Extralink toaster** it provides not only fast, but also efficient cooking. This power ensures even heating, preserving the internal texture and taste of the sandwich.

4-SLICE TOASTER

SANDWICH-MAKER XXL
SJ-33

Elevate Your Kitchen, Elevate Your Life!

Extralink SJ-33 toaster has a built-in thermostat, thanks to which the device does not overheat, and the sandwiches fried in it are perfect. Automatic temperature control protects the sandwich maker from overheating, and the lid has light indicators for "heating" and "ready to use", which makes it easier to monitor the cooking process.

The perfect solution for party snacks

The SJ-33 toaster has a special locking handle that prevents the appliance from opening during cooking or carrying. This is especially useful if there are small children in the family. For stability, the toaster's feet are rubberised, and the power cord storage compartment allows the toaster to be stored upright, saving space in the kitchen.

TASTY AND FAST RESULTS

The EXTRALINK SMARTLIFE toaster lets you quickly and conveniently prepare 4 sandwiches! It has 2 heating plates with a non-stick coating, which not only makes sandwich preparation easier but also helps keep the appliance clean.

The toaster housing is made of high-quality black heat-resistant plastic, making the sandwich maker light and easy to carry. At the same time, this material provides sufficient strength to protect the contents from damage. Strong plastics can be durable and resistant to damage such as scratches or cracks. This helps extend the life of the appliance.
