Full product description

Creative fun with jewelry

Creative **bracelet** and **necklace** making set for children is a way to develop imagination and creativity. With a large number of **colorful pendants** in different **shapes**, children can create jewelry in any style they want. **DIY bracelets** and **necklaces** are great fun to express themselves through fashion.

Contents of the kit

The set consists of **69 pieces**, which include **3 necklace bases**, **3 bracelets** and various **beads** and **pendants** in many colors and shapes. With this wide range, children can create various combinations, developing their manual and artistic skills. The whole set is packaged in a practical zippered case for easy storage.

Practicality and portability

The set is packaged in a lightweight and handy case, which has **compartments**, **hooks** and extra space for tags. This makes it easy for the child to take the set to the kindergarten, a friend's house or to the backyard. The set is designed with convenience in mind - the child will have no problem organizing the items.

Supporting child development

The toy has a great impact on the child's development. **Beading** and jewelry making exercises manual skills, develops concentration and imagination. Children also learn cooperation when they play with their peers. This is an excellent opportunity to strengthen social skills, which are essential in everyday life.

Safety and convenience of use

The set is suitable for children, but please note that it is not intended for toddlers under the **age of 3**. The toy requires adult supervision to ensure complete safety during play. High quality materials ensure that the set is durable and damage-resistant.
