Full product description

Safe space for your child

Children are curious about the world and want to explore every corner of the house - so **properly securing the space** is a key part of ensuring their safety. With a width of **up to 140 cm**, the Momcozy gate allows you to separate the zone without risking access to the stairs, kitchen or other potentially dangerous areas. Thanks to **the breathable, semi-transparent material**, you can keep an eye on your little one while blocking their access to selected areas.

Adjustable width and easy installation

The Momcozy gate has a scalable design, which means that **it can be adapted to different widths of passageways and corridors**. A simple mounting system allows the gate to be quickly attached without drilling into walls (wall mounts can be used as needed). With three available sizes (**up to 140 cm wide**), it fits most passageways in the house.

Double locking mechanism for added security

A child may try to open the gate, but **the double locking mechanism** effectively prevents this. The locking system is designed to be intuitive for adults, but difficult for a toddler to unlock. **The sturdy design** ensures that the gate stays in place, even if a child tries to push or pull up on it.

Material easy to clean and safe for baby

The gate is made of **breathable, translucent material** that provides good visibility and airflow. The surface is easy to clean - a damp cloth is enough to remove dirt. **The lack of hard and sharp edges** makes the product safe even for the most active toddlers.

Available in three colors - fits any interior

Every home has its own style, so the Momcozy gate is available in **three color options: white, gray and black**. You can choose the color that will blend with the interior, without introducing unnecessary contrasts. **Functionality and aesthetics go hand in hand here**, making the gate a discreet design element.

Contents of the kit

- Momcozy gate (1 pc.)
- Mounting template (2 pcs.)
- Abutment mount (4 pcs.)
- Top gate mount (2 pieces).
- Lower gate mount (2 pcs).
- Short screws (16 pcs.) (8*4*30 mm)
