Full product description

Secure and Convenient Access at Your Fingertips with Ubiquiti G3 Reader Pro

Ubiquiti G3 Reader Pro is an advanced **NFC access reader** that provides a fast, secure and convenient way to manage building access. With **PoE**, **integration with UniFi Access** and comprehensive **NFC** support, this device becomes an indispensable part of modern access control systems. Ideal for both offices and residential spaces, the G3 Reader Pro provides complete security control in an elegant and functional way.

Remote Access and Convenient Opening

The Ubiquiti G3 Reader Pro supports **NFC**, allowing you to **conveniently open doors** with NFC cards, key fobs or phones. In addition, the device supports **Touch Pass**, allowing users to open doors remotely using a mobile app. With these features, users can **securely and quickly** gain access to rooms without the need for traditional keys

Safety and Durability

The Ubiquiti G3 Reader Pro ensures **high safety standards** with UL 294 certification and protection against destructive attacks. The device is **weatherproof** with an **IP55 rating**, making it suitable for both indoor and outdoor use. The **high quality of the housing** ensures the durability and reliability of the device in harsh environments.

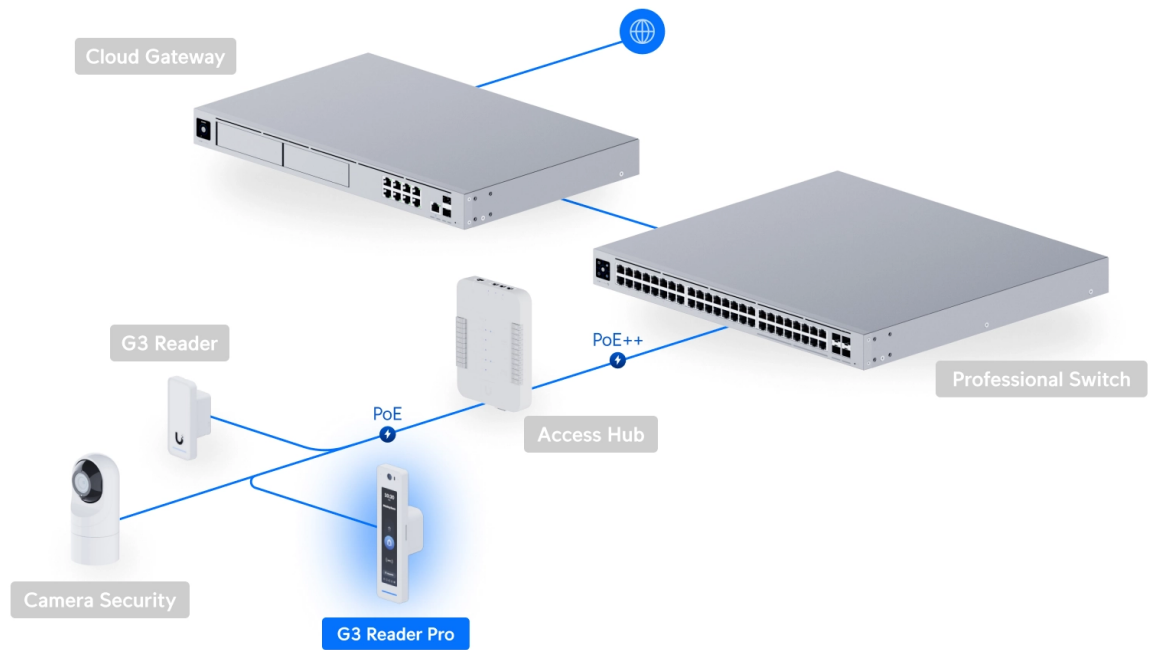

Easy Installation and Setup

The **Ubiquiti G3 Reader Pro** is very easy to install thanks to **PoE** support, which means that all functions are available through a single Ethernet cable. Mounting the device is simple, and the ability to install it **on a wall** or **in an electrical box** gives you the flexibility to fit it into different locations. Thanks to the simple configuration via the UniFi Access app, the entire commissioning process is quick and intuitive.

High Performance and Integration with UniFi

The Ubiquiti G3 Reader Pro is integrated with UniFi Access, allowing easy integration with other devices from the brand. Thanks to PoE (Power over Ethernet), the device is powered via a single cable, simplifying installation and reducing clutter. UniFi Cloud allows you to remotely monitor and manage the device, so you have full control over access in your business or home.

Compatibility with NFC Systems

The Ubiquiti G3 Reader Pro supports a wide range of **NFC** cards and key fobs, such as **MIFARE Classic** and **MIFARE DESFire**, as well as **Sony FeliCa™**. With a frequency of **13.56 MHz**, the device provides fast and reliable card reading **from a distance of up to 30 mm**. It also supports Apple/Google Wallet and PIN, giving the user flexibility in managing access.
