Price: **1,859.39 zł** gross / 1,511.70 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGHILQFRMMJJ

Product features

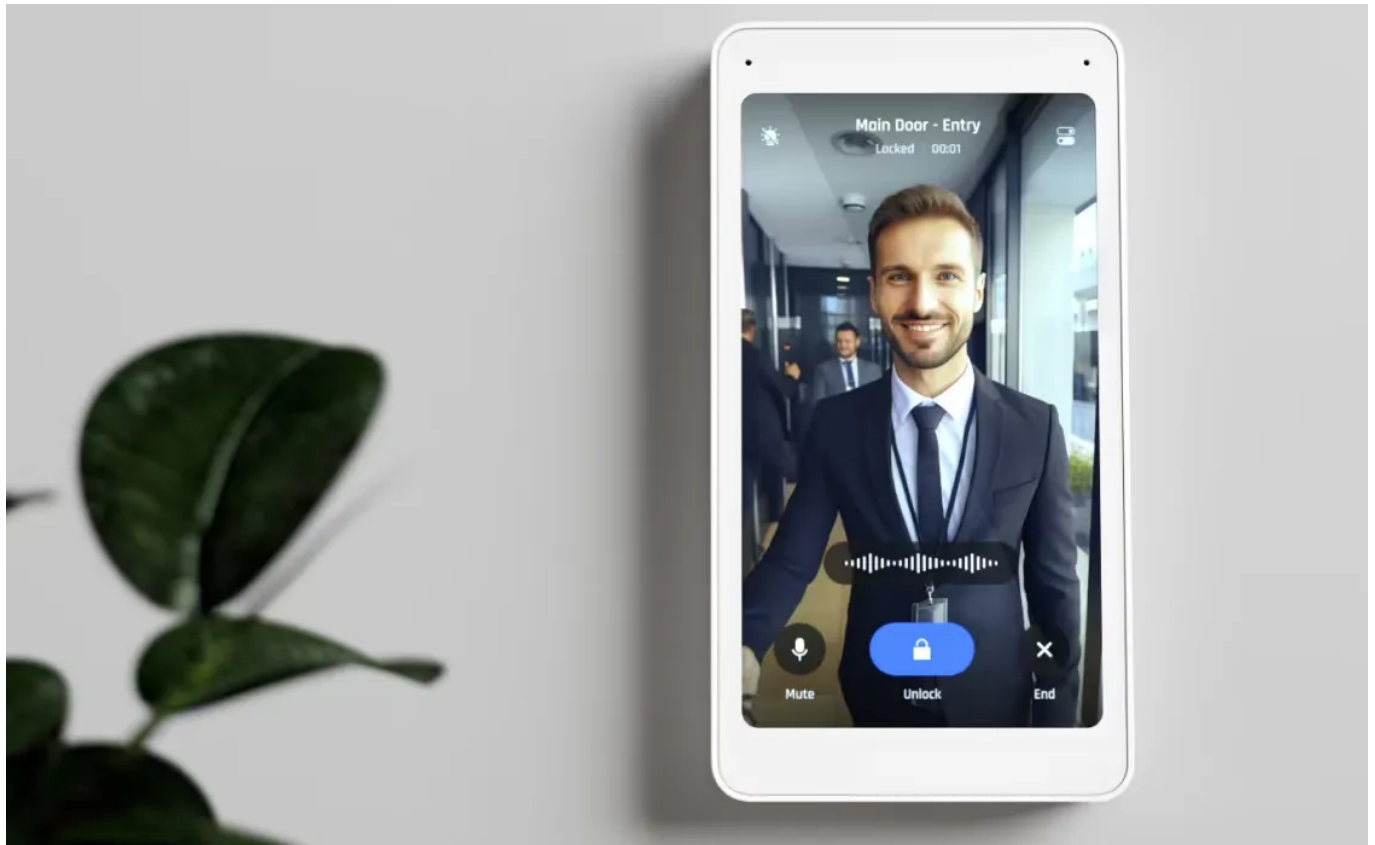

Product type	Display
Height	135 mm
Width	72 mm
Depth	31.8 mm
Resolution	720 pixels
Mounting kit	Yes
Compliance certificates	CE
Power consumption (typical)	5 W
Humidity measurement range	5 - 95%
Touchscreen	Yes
DC input voltage	48 V
Material	Glass
Operating temperature (T-T)	-10 - 40 °C
Brand compatibility	Ubiquiti
Built-in microphone	Yes
Display diagonal	5 "
RJ-45 ports quantity	1
Power over Ethernet (PoE)	Yes
Brightness	300 cd/m2
Built-in speaker(s)	Yes
Product colour	White
Mounting hardware type	Wall

Sustainability compliance	Yes
Product weight	168 g

Full product description

Access control at a higher level

Building security starts with effective **access control**. The **Ubiquiti UA-Intercom-Viewer-3** is a **UniFi Access intercom monitor** that provides convenience and better communication at the entrance. **The 5" touch screen** allows quick operation of the video intercom, allowing you to view people at the door and manage access. With **PoE power**, installation is simplified, saving time and convenience.

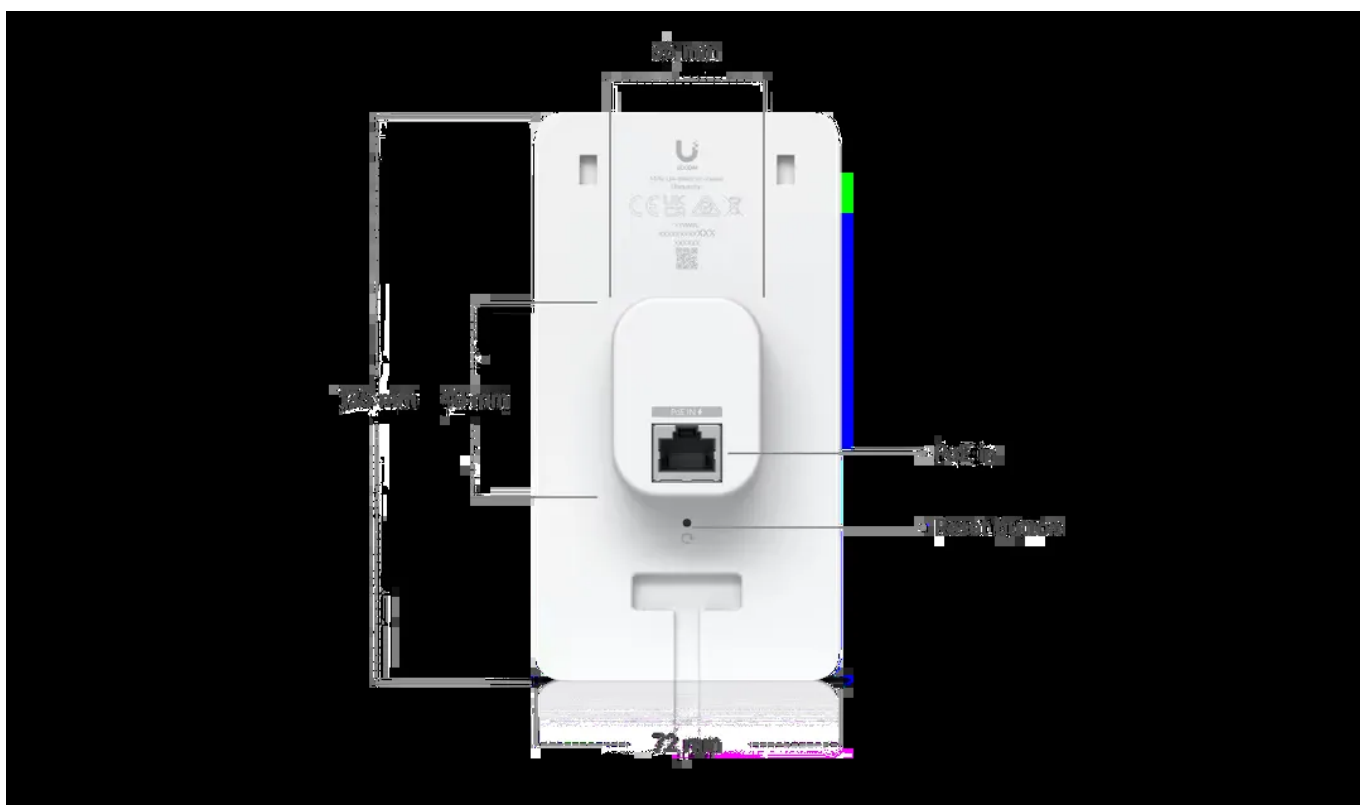

Clear and responsive display

The 5-inch touch screen with a resolution of **720 x 1280 px** provides clear images and intuitive control. Capacitive multi-touch technology guarantees smooth and precise touch responses. With **300-nit** brightness, the screen is readable even in well-lit rooms.

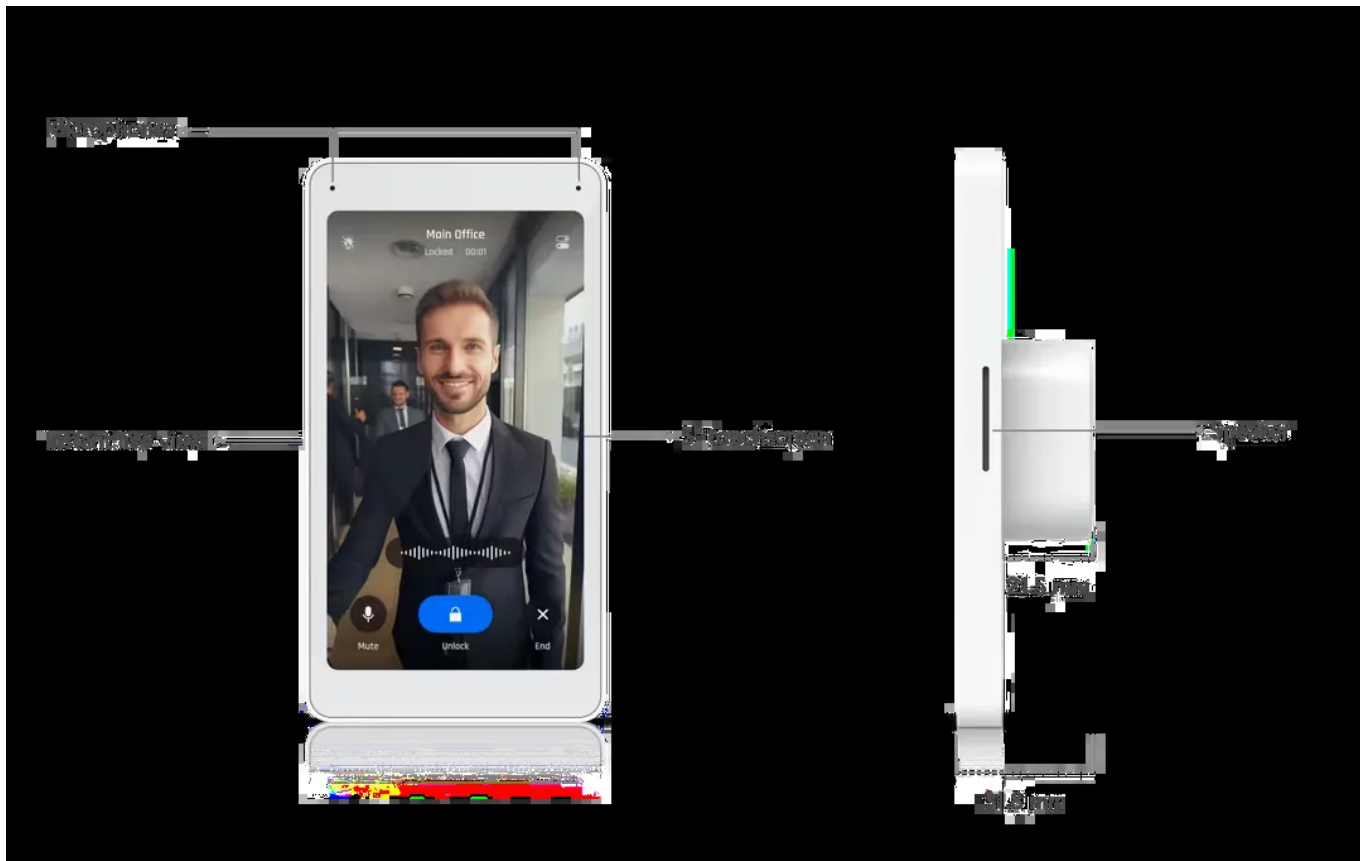

Ergonomic user interface

The device operates in portrait orientation, allowing **quick access to key functions**. UniFi Access' clear interface makes it easy to view event history and control access. **The monitor** works with the UniFi system to ensure smooth operation in the **Ubiquiti ecosystem**.

Power supply via PoE

The UniFi Access intercom monitor uses PoE power, which eliminates the need for additional power cables. By supporting **44-57V DC** voltage, the device operates stably and efficiently. This solution simplifies installation, allowing quick connection to the network infrastructure.

Seamless integration with access control system

The Ubiquiti UA-Intercom-Viewer-3 works within the UniFi Access ecosystem to provide real-time access control. By integrating with a video intercom, users can see who is outside the entrance and then open the door with a single touch.
