Full product description

Ubiquiti UA-Lock-Magnetic-270kg - security and safety of access

Ubiquiti UA-Lock-Magnetic-270kg is a proven option for companies and institutions that require effective door locking. With a **forceful 270kg lock** and integration with **Unifi Access Hub**, it provides convenience of use and protection against unauthorized access.

Strong lock for effective access control

The Ubiquiti UA-Lock-Magnetic-270kg magnetic lock offers **a holding force of 270kg**, providing high resistance to unauthorized opening. It is a solution for offices, warehouses and facilities requiring a high level of security. **The lock's robust design** enhances door security, without the need for traditional mechanical locks.

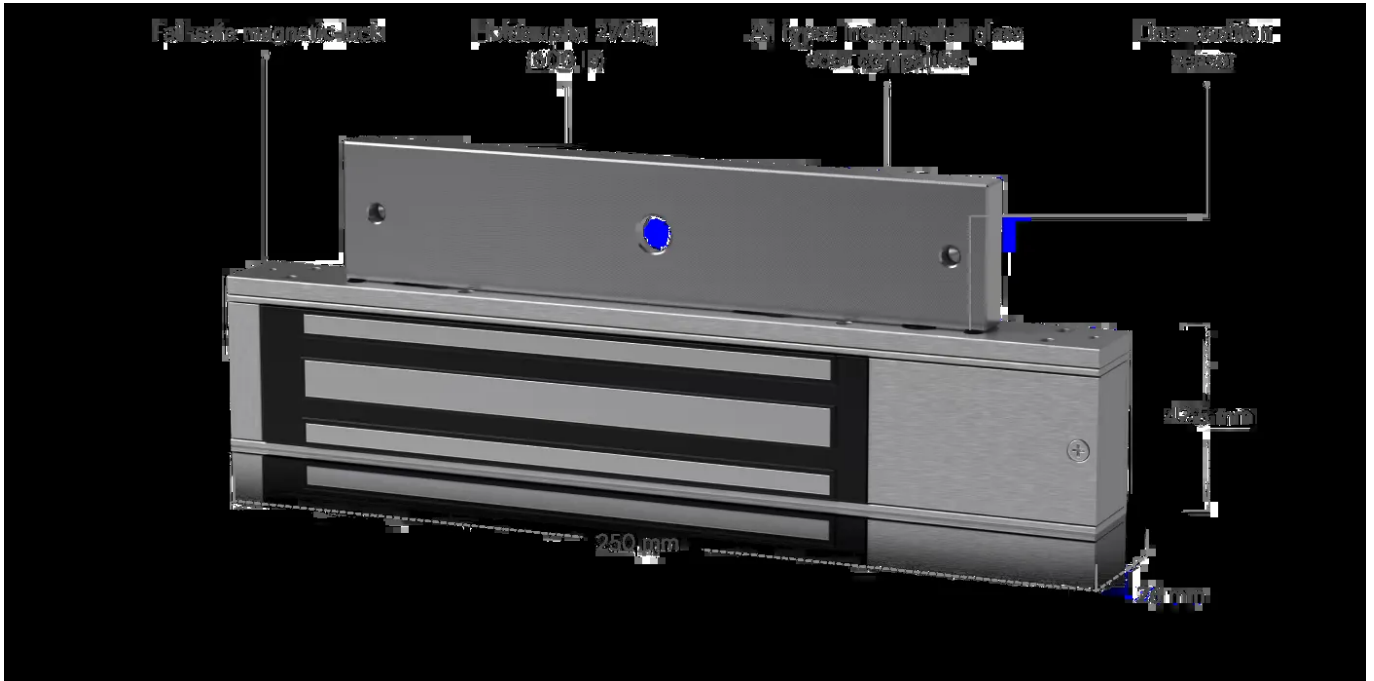

Easy integration with Unifi Access

The lock works with the **Unifi Access Hub** (UA-Hub), making it easy to manage access within your Ubiquiti system. You can control the lock using **Access Reader Lite readers** and the Unifi Access app. This setup allows you to automatically manage access for employees and visitors, eliminating the need for keys.

Durable and resistant construction

The body of the lock is made of **aluminum**, and the fasteners are made of **heavy-duty steel**, which guarantees its resistance to daily use. It is suitable for mounting on wooden, metal and glass doors, making it suitable for a variety of applications. The design is **resistant to temperature changes and humidity**, so it will perform well in a variety of conditions.

Power supply and installation tailored to different needs

The magnetic lock operates with a **12V DC power supply**, allowing easy connection to standard access control systems. The ability to be mounted on different types of doors makes it possible for the user to customize the lock. In addition, **the LED system indicates the status of the lock** - red indicates locking, and green indicates unlocking.
