Full product description

A comprehensive starter kit containing everything you need to get your UniFi Access system up and running

The UniFi **Access Starter Kit** contains everything you need to set up the latest generation of access control system for your business. Compatible with most electric locks and magnetic locks, **the UniFi Access Starter Kit** is easy to install with minimal effort and offers the convenience of the **UniFi OS Console** to easily manage users, visitors, schedules and access policies. The UniFi **Access Starter Kit** is powered by native PoE technology, **a PoE switch is not included**.

The starter kit includes:

- 1x UniFi Access Hub
- 1x UniFi Access Reader Pro
- 1x UniFi Access Reader Lite
- 1x UniFi Access Card (20 cards)

UniFi® Access Hub is an intelligent IP network door controller, part of the UniFi Access solution

The **UniFi Access Hub** is equipped with versatile interfaces, including support for most electrical bolts/latches, magnetic locks, and 12V access accessories such as motion sensors, buttons, and alarms. Three **Ethernet PoE-powered** reader interfaces minimize cabling and offer a convenient way to add a **UniFi G3-Flex** surveillance camera for added security. The **UniFi Access** solution is managed with UniFi **UniFi OS Console** software. Easily manage users, visitors, schedules and access policies through an intuitive browser-based interface.

UniFi® Access Reader Pro is a high performance NFC and Bluetooth reader with a clear touch screen and high resolution camera, part of the UniFi Access solution

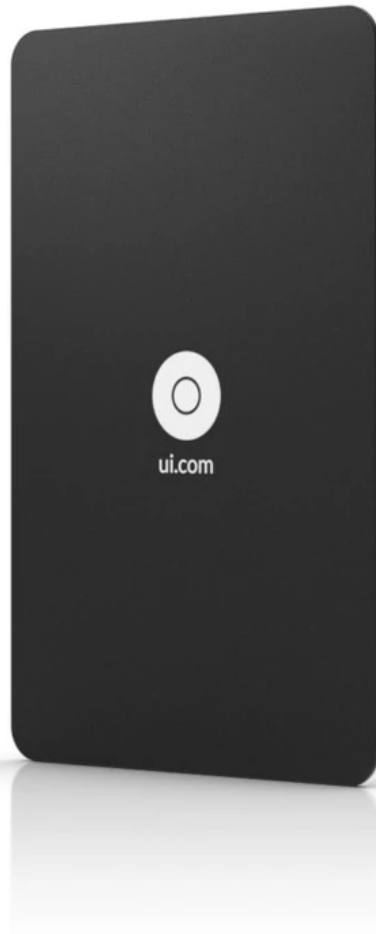

The **UniFi Access Reader Pro** is designed with guest convenience and employee convenience in mind. Powered by **PoE**, the reader is easy to install and supports the latest **NFC** security standards, including **AES-128 MIFARE DESFire** encryption. Door unlocking is fast and secure with an **NFC card or mobile app**.

UniFi® Access Reader Lite is a state-of-the-art NFC and Bluetooth reader, part of the UniFi Access solution

UniFi Access Reader Lite is designed for convenience of use and secure access. The **PoE-powered** reader is easy to install and supports **the latest NFC security standards**, including **AES-128 MIFARE DESFire** encryption. Unlocking door is fast and secure with an **NFC card or mobile app**.

UniFi® Access Card is a highly secure NFC smart card compatible with the UniFi Access System

Card data is encrypted using both **AES-128** and **UniFi Access'** proprietary security mechanism. Additional security measures protect the card number from being leaked and duplicated.
