Full product description

Stable and efficient power supply for your network

Adequate **power supply** is the key to stable operation of network devices. **The Ubiquiti UACC-Adapter-AC-210W** is a power adapter that delivers **210W** of power to ensure safe and efficient operation of switches, routers and PoE cameras. With a **54V DC voltage** and robust design, this is an adapter that will meet the requirements of **professional network installations**.

Tailored for demanding devices

The **Ubiquiti UACC-Adapter-AC-210W** power supply offers **210W** of power, allowing you to seamlessly power switches, routers and other network devices. With a **constant 54V DC voltage**, it ensures **efficient operation of** PoE systems, eliminating the risk of voltage drops.

Optimal power supply for PoE

With **54V DC**, the power supply can support PoE devices such as surveillance cameras, access points and other Ubiquiti network accessories. Adequate power allows **equipment** to **operate uninterrupted**, even at higher loads.

Protection against voltage spikes

The device is designed to **minimize the risk of voltage spikes and overloads**. This ensures that your switches, routers and other network devices work without interference.

Resistance to changing environmental conditions

The power supply operates in a temperature range of **0 to 40°C**, making it suitable for **offices, server rooms and more demanding installations.**
