Width	83.4 mm
Depth	4.8 mm
Compatibility	UXG-Lite, UX
Product colour	White
Mounting hardware type	Wall
Watch case material	Polycarbonate (PC)
Product weight	58 g

Full product description

Stable and convenient mounting for your Ubiquiti devices

The Ubiquiti UACC-FM is a mounting bracket that allows easy installation of the UniFi Express and Gateway Lite. You can attach it to the wall with screws, mounting studs, or a magnet, giving you great mounting flexibility. If you are looking for a practical solution to organize your network equipment and want to avoid clutter on your desk, this mount will meet your requirements.

Universal mounting options

The Ubiquiti **UACC-FM** mount offers **three different mounting methods** - it can be attached to a surface with **screws, mounting studs or a magnet**. This makes it compatible with different types of walls and surfaces, including metal ones. The **magnetic mounting** capability makes the device easy to reposition without drilling holes.

Compact and durable design

The mount's housing is made of **polycarbonate and silicone rubber**, which makes it **resistant to mechanical damage**. With dimensions of **83.4 x 83.4 x 4.8 mm** and a weight of **58 g**, the mounting bracket is lightweight, yet sturdy enough to hold a mounted device in a stable position. Whether you install it on a wall or on a metal surface, it will ensure that your **equipment is held securely and safely**.

Fitted for UniFi devices

The **UACC-FM** mount is designed for **UniFi Express and Gateway Lite** devices, which means full compatibility and easy mounting. This allows Ubiquiti network equipment to be **better organized** and mounted in an optimal place. Its use eliminates the need for additional mounting accessories.

Aesthetic and functional solution

Thanks to its small size and **neutral design**, the holder blends in well with any interior. It is **a practical alternative** to traditional ways of placing network devices, which often take up space on desks or shelves. You can place your devices in a discreet location without losing access to their functionality.
