Height	160 mm
Width	40.4 mm
Depth	31.1 mm
Compatibility	UA-G2-Pro
Material	Polycarbonate
Brand compatibility	Ubiquiti
Product colour	Black
Product weight	43 g

Full product description

Ubiquiti - a robust solution for access systems

The **Ubiquiti** brand is known for its **high-quality** accessories for network and access control systems. The **UACC-Reader-Pro-AM-B** is a product that extends the capabilities of the **Access Reader Pro**, enabling better visibility and more ergonomic placement of the reader. The **mounting box** makes installation quick and convenient.

Precise adjustment of the mounting angle

Thanks to its clever design, **the UACC-Reader-Pro-AM-B** allows you to **adjust the mounting angle**, making the reader more convenient to use. Setting the reader at the right angle makes scanning access cards or QR codes **more intuitive and fast**. This is especially useful in high-traffic areas where **system efficiency** matters.

Durable and aesthetically pleasing design

The product is made of **high-quality** polycarbonate, which ensures resistance to outdoor conditions and heavy use. Its black color blends perfectly with other devices of the **UniFi Access** series, ensuring a consistent design. The solid construction makes wall mounting **stable and secure**.

Easy installation and wide compatibility

The **UACC-Reader-Pro-AM-B** is fully compatible with the **UniFi Access Reader Pro**, and thanks to a dedicated mounting system, its installation is quick and requires no specialized tools. The mounting box fits the standard **UA-G2-Pro gang box mount**, further simplifying the setup process. As a result, you save time and avoid unnecessary complications during installation.

Optimal dimensions for comfortable use

With a height of **160 mm** and a slim design, the handle provides ergonomic and comfortable operation of the reader. Its dimensions have been chosen to provide maximum functionality with minimal intrusion into space. As a result, the product is both **practical and unobtrusive**, working well in a variety of environments - from offices to access control systems in residential buildings.
