Full product description

Robust protection from Ubiquiti Networks

The **Ubiquiti UVC-G4-DB-Cover-Brick** case is an accessory designed to be compatible with the UVC-G4-DoorBell, providing an aesthetically pleasing appearance and additional protection for the device. Made of **durable polycarbonate**, the case effectively protects the video intercom from minor damage and weather conditions. Thanks to its **orange finish**, it harmonizes with the brick facade of buildings, giving a consistent and professional appearance.

Weather resistance

The housing, **made of durable polycarbonate**, is rain, wind and UV resistant. As a result, **the UVC-G4-DoorBell** remains protected from external influences, increasing its durability.

Aesthetically pleasing match to the brick facade

The **Brick** color is designed to match the **brick** facade, giving a harmonious look to the building facade. If you're looking for an aesthetically pleasing finish, this housing is the perfect choice. The subtle design makes the video intercom **blend** in with **its surroundings** without disturbing the appearance of the building.

Easy installation without additional tools

Installation of the housing is quick and intuitive, requiring no specialized tools or additional accessories. **Installation in a few minutes** allows you to quickly and conveniently fit the **UVC-G4-DoorBell**. It's a time-saving solution with **full functionality**.

Lightweight and durable design

Thanks to the use of **high-quality materials**, the case is extremely lightweight, yet durable. It does not weigh down the device, which is important when installing it on various surfaces. **The polycarbonate housing** provides an additional layer of protection without affecting the functionality of the video intercom.
