Product features

Regulatory Approvals	FCC, IC, CE
Input voltage	16 V
Sensor type	CMOS
Connectivity technology	Wireless
Echo cancellation	Yes
Night mode	Yes
Humidity measurement range	0 - 90%
Best uses	Home
Operating temperature (T-T)	-10 - 40 °C
LED type	IR
Diagonal field of view	155 °
Reset button	Yes
Maximum video resolution	1600 pixels
Maximum frame rate	30 frames per second
PIR detector	Yes
Card reader integrated	No
Built-in microphone	Yes
Built-in camera	Yes
Water-resistant	Yes
Mounting bracket(s) included	Yes
Wi-Fi standards	802.11a
Bell height	118.3 mm

Wi-Fi	Yes
Bell depth	25.8 mm
Bell width	46.8 mm
AC input frequency	50 Hz
Built-in speaker(s)	Yes
Power source type	AC
Vertical field of view	114 °
Horizontal field of view	138 °
Megapixel (approx.)	2 MP
Product colour	Black
Watch case material	Polycarbonate (PC)

Full product description

UniFi Protect G4 Doorbell

The **UniFi Protect G4 Door** bell is a Wi-Fi doorbell from **Ubiquiti** with an integrated display and **real-time** two-way audio communication. You can easily replace your conventional doorbell with the much more functional and advanced **UniFi Protect G4 Doorbell**.

Easy to install in place of your old doorbell

The UniFi**Protect G4** Doorbell is so easy to install that no professional equipment is required. All you need to do is unscrew the old doorbell, screw the **UniFi Protect G4 Doorbell** in its place and connect the 2 wires from the power supply. You can then proceed to wirelessly connect and configure the device.

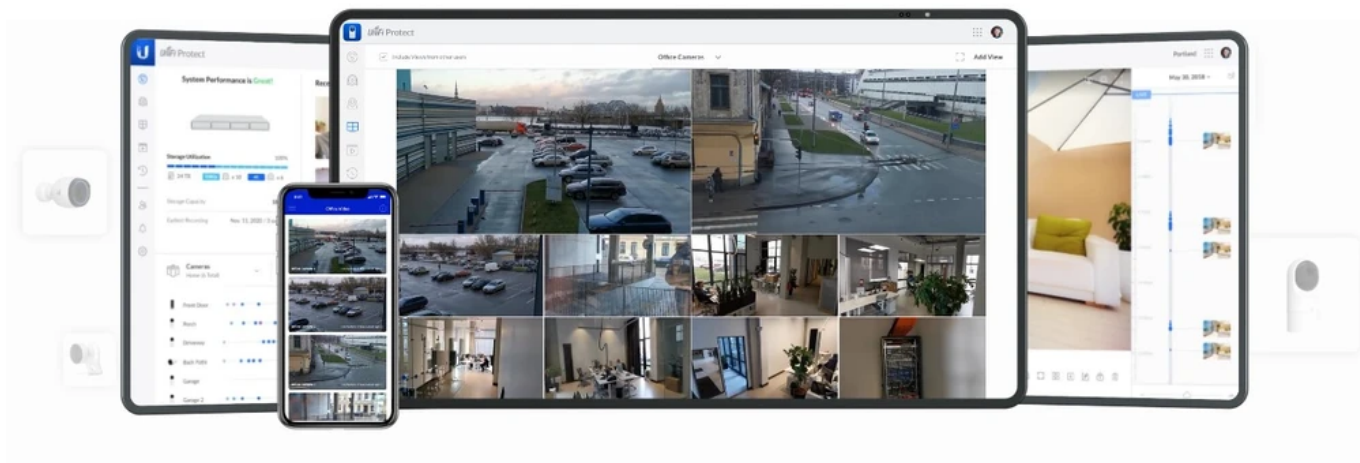

Intuitive operation and additional features

Using the **UniFi Protect G4 Doorbell** is extremely simple, similar to a conventional doorbell. When you approach the door, the doorbell display lights up, illuminating the call button as if inviting you to press it. The **UniFi Protect G4 Doorbell** also has a small **display** for displaying useful information. The display can show **pre-programmed messages**, such as for late visitors or the courier company - don't call, leave a package at the door.

Advanced features

When it comes to unique doorbell features, the **UniFi Protect G4 Doorbell** has an entry light that turns on when people approach. It also has two-way audio, just like the Ring and G3 Micro, and is weatherproof. The **UniFi Protect G4 Doorbell** camera has a high-quality **5 MP** sensor with enhanced night vision. Video streams can be viewed in up to **1600x1200 (2MP) HD** at 30 frames per second. **UniFi Protect G4 Doorbell** includes an IR sensor for instant motion detection. Integration with **UniFi Protect** provides an easy-to-use interface from your phone or computer.

Main features

- Easy installation
- Built-in display
- Real-time two-way audio with echo cancellation
- 1600x1200 (2MP) HD streaming with night vision
- PIR motion detector
- Dual-band 802.11ac Wi-Fi
