### Full product description

### Hidden dangers are everywhere

Dust mites are a major cause of allergies and asthma. Did you know that dust mites and their metabolic products are a major cause of allergy and asthma symptoms? The EPA estimates that there can be up to 10 million dust mites in a single mattress. Dust mites feed on the flakes of skin that we shed every day. These skin flakes make their way deep into the inner layers of furniture, bedding and even into stuffed toys - places where dust mites thrive. Target and eliminate these mites with UWANT M300.

### **Strong suction of 13kPa, ideal for allergy sufferers**

Dust mites and allergens have nowhere to hide thanks to its high vibration force of 12,000 times/min and suction force of 13Kpa. It can remove allergens, dust and mites from beds up to 20 inches deep, further enhancing cleaning performance. The UWANT M300 mattress vacuum is ideal for allergy sufferers.

### **Patented design with two bins: Separate filtration and dust collection**

The filter container is used for filtering and the other for storing dust. This UWANT M300 handheld mattress vacuum can hold more and run longer without frequent emptying.

### **High penetration UV light effectively eliminates 99.99% of allergens, bacteria and dust mites**

UWANT M300 vacuum cleaner captures particles as small as microns, removes dust / pet dander and dander / pollen / dust mites, stopping dust mites from multiplying at the source.

### Easy to use anytime, anywhere

Beds, sofas, toys or carpets, any place you can imagine, can be easily cleaned with the M300. Completely free yourself from the dangers of dust mites and enjoy a healthy life.

**Cleaning bed**

**Cleaning toys**

**Sofa cleaning**

**Blanket cleaning**

### **Smart LED display**

The degree of mites is clearly visible, and the ambient humidity is displayed in real time.

### Extra wide suction port 23 cm

Mite removal is more efficient. With the UWANT M300 mite vacuum, you'll achieve twice the results with half the effort, saving you valuable time.

## Optimized design, detachable and washable parts

UWANT mattress vacuum cleaner is equipped with parts and dust bins that can be washed with water and dried. They can be reused for a long time without any problems, making them more environmentally friendly and economical!

## Ultrasonic function

The M300 emits a small amount of ultrasonic waves that are harmless to humans and pets and only work on dust mites to stop their reproduction. The vacuum offers physical removal of mites, protecting you and your children.

### **Drying with hot air during cleaning**

During cleaning, the holes in the back of this mattress vacuum will blow hot air to dry the mattress in the meantime, which removes moisture from inside the mattress or carpet and ensures that there is no place for invisible mites to grow.
