Full product description

Disposable mop cloth for Mi Robot Vacuum-Mop 1C

This set of disposable rag nozzles for Xiaomi Mi Robot Vacuum Mop 1C provides **gentle and thorough cleaning of** all surfaces.

Thanks to the balanced composition of the fabric, it **quickly removes dirt** from laminate, tiles, linoleum and other materials without damaging the top layer. The optimum fabric density ensures even absorption and a complete absence of puddles and stains during **wet mopping**. The polyamide and polyester contained in the microfiber provide high **abrasion resistance**, making the cloth last 3-5 months before replacement.
