Price: **189.00 zł** gross / 153.66 zł net

Manufacturer: XIAOMI

Referention number: DNXXGJQHQMNMIM

Information:

Xiaomi Smart Camera C500 is an indoor 3.5K UHD surveillance camera with a 6 MP sensor, delivering highly detailed images both during the day and after dark. Full-colour mode in low light, the f/1.6 lens and 8 x 940 nm IR LEDs help capture clear night-time recordings without a visible red glow. The camera detects people and animals, tracks movement and reduces false alarms, while the 360°/116° rotating mechanism lets it cover a larger part of the room. Two-way voice communication makes it easier to stay in touch with household members, and Wi-Fi 6 ensures a stable live view. Privacy is protected by the MJA1 chip, cloud encryption and physical lens masking. It supports microSD cards, cloud storage and NAS, as well as integration with Xiaomi HyperOS Connect, Alexa and Google Assistant.

Product features

Height	119 mm
Video streaming	Yes
Width	79 mm
Depth	79 mm
Connectivity technology	Wireless
Maximum resolution	3200 pixels
Security algorithms	128-bit AES
Field of view (FOV) angle	110 °
Mounting kit	Yes
Live view	Yes
Cables included	USB
HTTPS encryption	Yes
Infra-red wavelength	940
Night mode	Yes

DC output voltage	5
DC output current	2 A
Number of cameras	1
Smartphone/tablet remote support	Yes
Number of lenses	5
IFU / User manual	Yes
DC-in jack	Yes
Operating temperature (T-T)	-10 - 40 °C
Minimum aperture number	1.6
Number of illumination LEDs	10
Wide Dynamic Range (WDR)	Yes
Supported graphics resolutions	3200 x 1800
Pan range	0 °
Screws included	Yes
Card reader integrated	Yes
Built-in microphone	Yes
Web-based management	Yes
Total megapixels	6 MP
Auto-tracking	Yes
Video formats supported	H.265
Maximum memory card size	256 GB
Video recording	Yes
Compatible memory cards	MicroSD (TransFlash)
Remote viewing	Yes
Wi-Fi standards	802.11a
Wi-Fi	Yes
Bluetooth	Yes
Ethernet LAN	No
Built-in speaker(s)	Yes
Mobile operating systems supported	Android 10
Built-in HDD	No
Power source type	DC
Built-in processor	Yes
Night vision distance	10 m
Camera tilt control	Yes
Camera pan control	Yes
Tilt angle range	0 °
Product colour	White
Mounting hardware type	Ceiling/Wall/Desk
Virtual assistant	Amazon Alexa & Google Assistant
Type	IP security camera
Designation	Indoor

Full product description

Home monitoring in 3.5K resolution

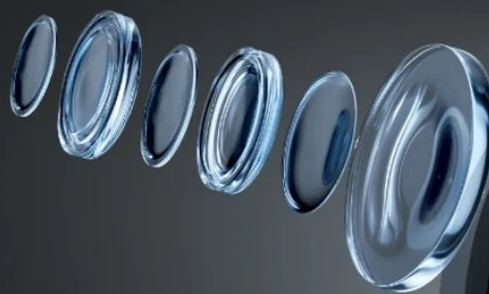

Xiaomi Smart Camera C500 is an indoor monitoring camera that combines **3.5K UHD**, a **6 MP** lens and a large **1/2.45-inch** sensor. It records clearly during the day and after dark, so it is ideal for monitoring a flat, a child's room or an electronics area.

Key benefits

- **3200 x 1800 resolution** - more detail in recordings and easier identification of people and events.
- **Full-colour mode in low light** - clearer image in the evening without losing important details.
- **People and pet detection** - faster alerts for movement that really matters.
- **Dual-band Wi-Fi 6** - more stable live view and smoother image transfer.
- **MJA1 security chip** - better protection of data and cloud transmission.
- **Physical privacy cover** - the camera hides the lens when you want privacy at home.

Clear image after dark

Recording quality is ensured by the **6P f/1.6 lens** and the sensor's high sensitivity, which preserve detail even in lower light. **Eight 940 nm infrared LEDs** enhance night viewing without a visible red glow, so the camera does not disturb household members while they sleep.

Fast response to movement

The camera supports **local people detection**, **body tracking** and pet detection and tracking. When something appears in the frame, the device triggers an alarm and saves the event, while the algorithm reduces the number of false notifications. It is a practical solution for a flat where a quick response to real movement matters.

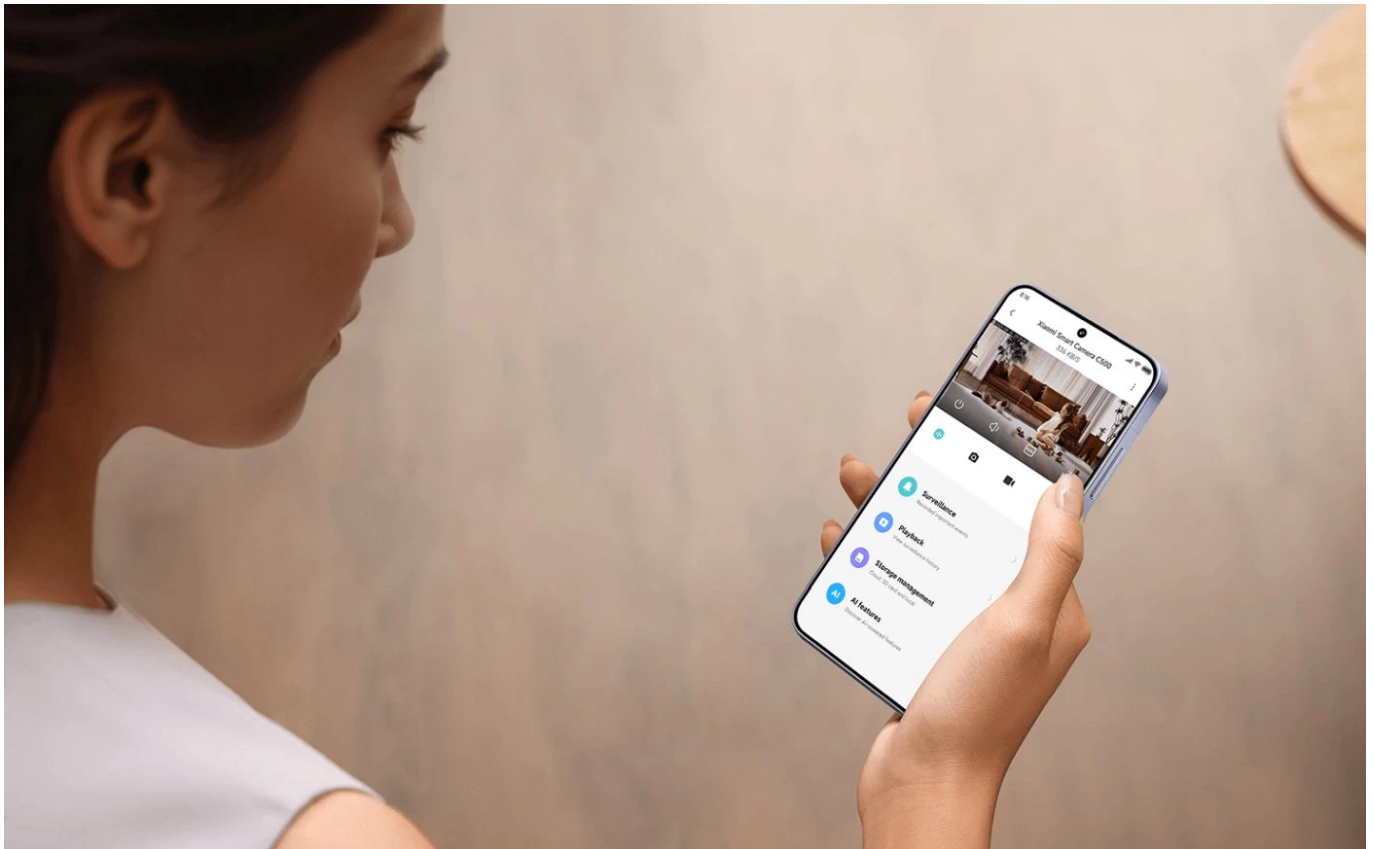

Wider frame without blind spots

The dual-motor mechanism rotates the lens through **360° horizontally** and **116° vertically**. From one position you can cover a larger part of the room, and phone control makes it easy to quickly point the camera at the door, window or a child's play area.

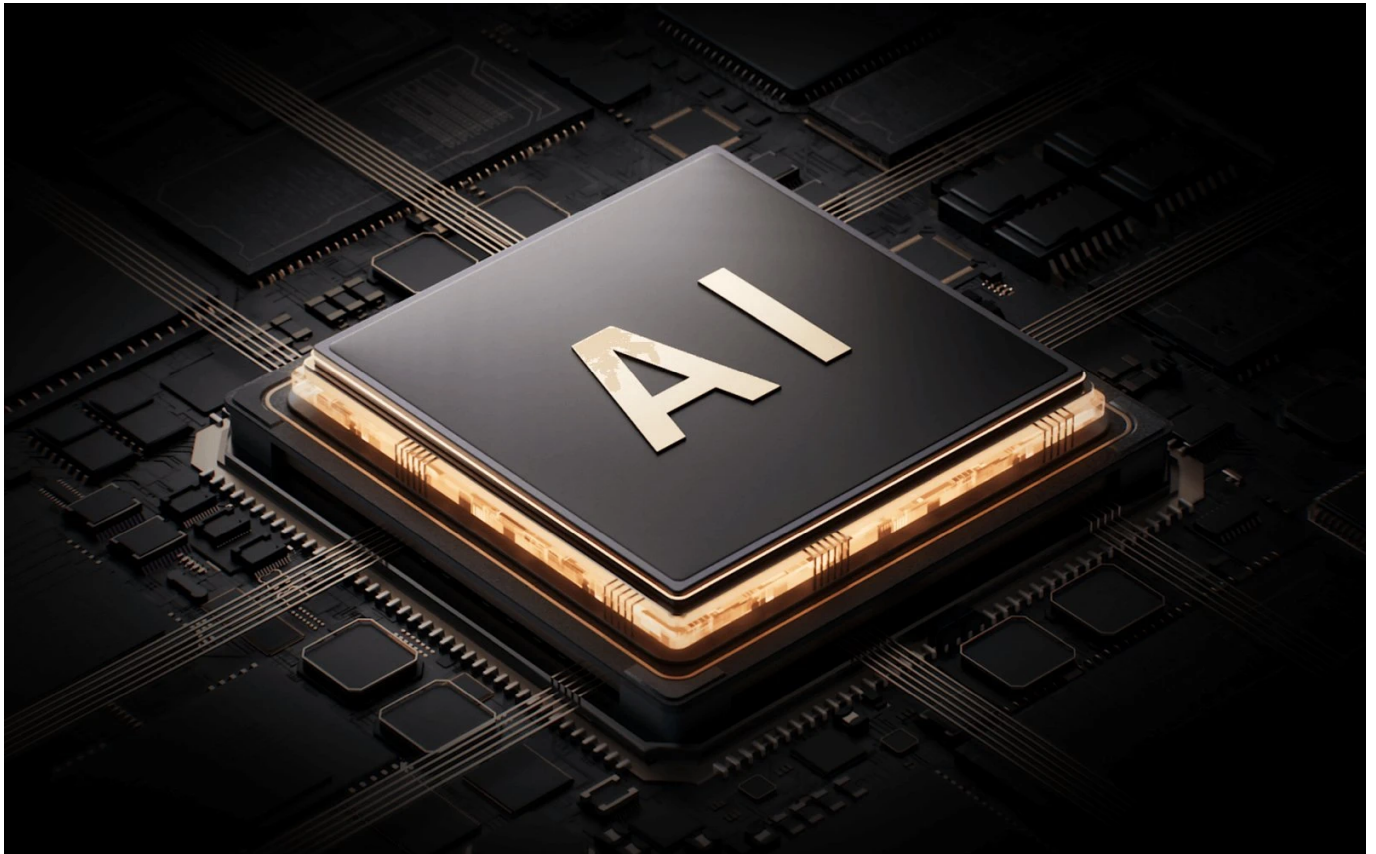

Talk through the camera

The C500 model supports **two-way voice calls**, so you can speak to household members without reaching for your phone. A separate sound chamber and large speaker increase volume and speech clarity, which is useful for staying in touch with family or calming a pet.

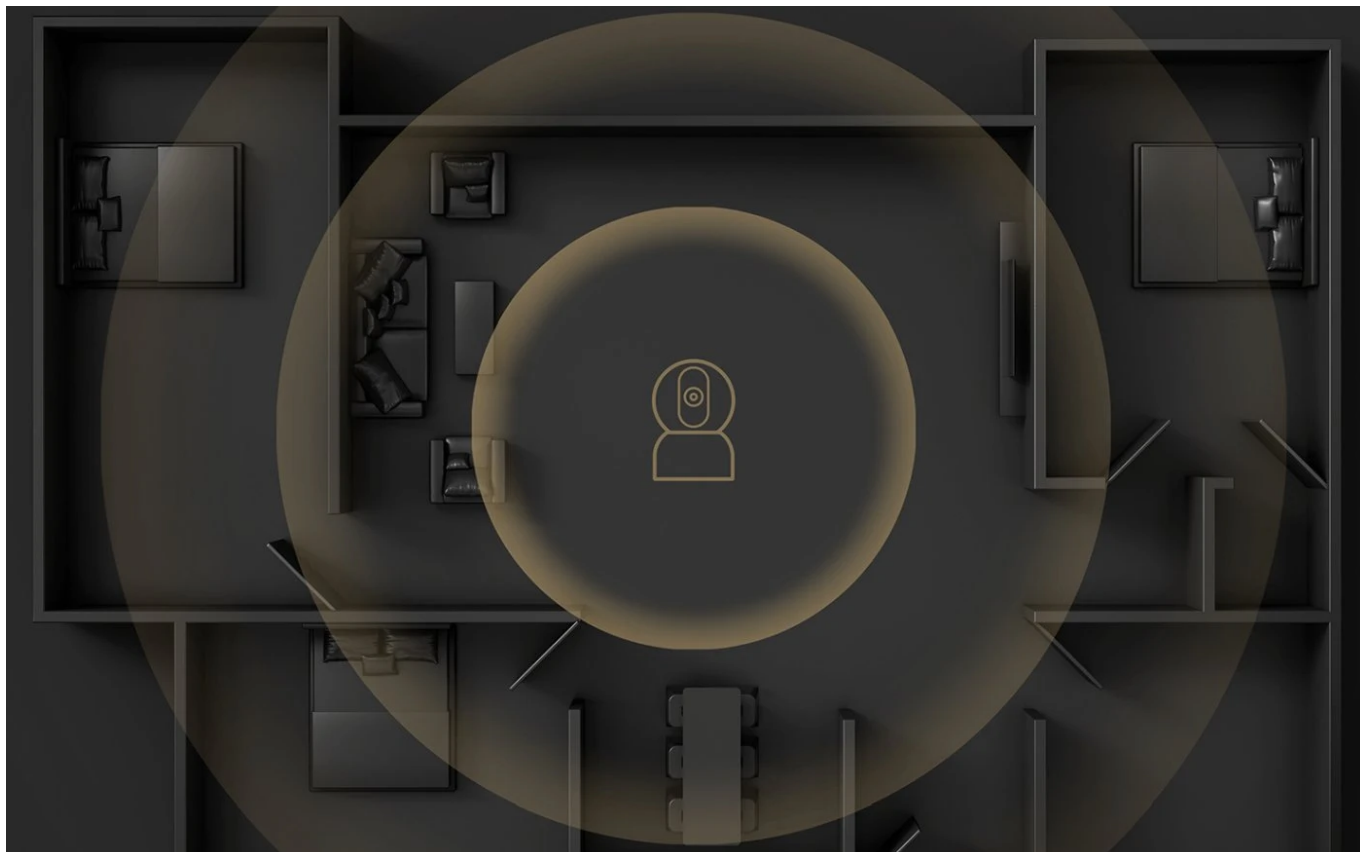

Privacy under your control

The camera uses the **MJA1** chip, cloud encryption and **physical lens masking**. You can set a cover schedule or an “I’m home” mode that hides the lens and stops recording. This means monitoring works only when you really need it.

Connectivity and recording storage

Dual-band Wi-Fi 6 reduces latency and stabilises live viewing, while **H.265** recording saves storage space. The camera supports a **8-256 GB microSD card**, cloud storage and network storage, so you can easily choose the archiving method that suits your needs.

Works with a smart home

Support for **Xiaomi HyperOS Connect** makes it easy to connect the camera with other devices in the home. You can run automation scenes, such as turning on the light when a person is detected, and check the image by voice through **Amazon Alexa** or **Google Assistant**. It is a convenient solution for everyday monitoring without unnecessary steps.

Technical data

- **Product name:** Xiaomi Smart Camera C500
- **Product dimensions:** 79 × 79 × 119 mm
- **Resolution:** 3200 × 1800
- **Input power:** 5 V □ 2 A
- **Wireless connectivity:** Wi-Fi IEEE 802.11 a/b/g/n/ac/ax 2.4 GHz/5 GHz, Bluetooth 5.0
- **Operating temperature:** From -10°C to 40°C
- **Storage:** microSD card (supports 8 GB to 256 GB), cloud storage, NAS network storage
- **Package contents:**
 - Xiaomi Smart Camera C500
 - Power adapter
 - Power cable
 - User manual
 - Adhesive mounting template
 - Wall-mount accessory set (base ×1, expansion screw ×2, screw (M3 × 25 mm) ×2)
 - Warranty card
